GYMN

WILLIAM H. McCALL

The students of Montana State College respectfully dedicate the 1948 MONTANAN to REGISTRAR EMERITUS WILLIAM H. McCALL.

After twenty-seven years of faithful service to the institution, first as Veterans Counselor and Adviser after World War I, and then as Registrar, Mr. McCall retired from active service in September, 1947.

The thousands of students who have passed through our educational halls during his administration will long remember his friendliness and sense of humor.

ROLAND R. RENNE
*President of
Montana State College*

Dr. Roland R. Renne became the sixth president of Montana State College, July 1, 1944. Although young for a college president, he is an able administrator with big plans for the future of the school. He takes a real interest in all collegiate affairs and individual problems of the students.

The detailed and confining duties of his administration have not kept Renne from continuing his interest in world economics, and during the past summer he was a delegate to the Conference of Agricultural Economics held at Arlington Hall, South Deven, England.

ETHELYN C. HARRISON

Dean of Women

The calm quiet atmosphere about her and her office, together with her understanding and sympathy for all, makes her an ideal person to visit when troubles arise.

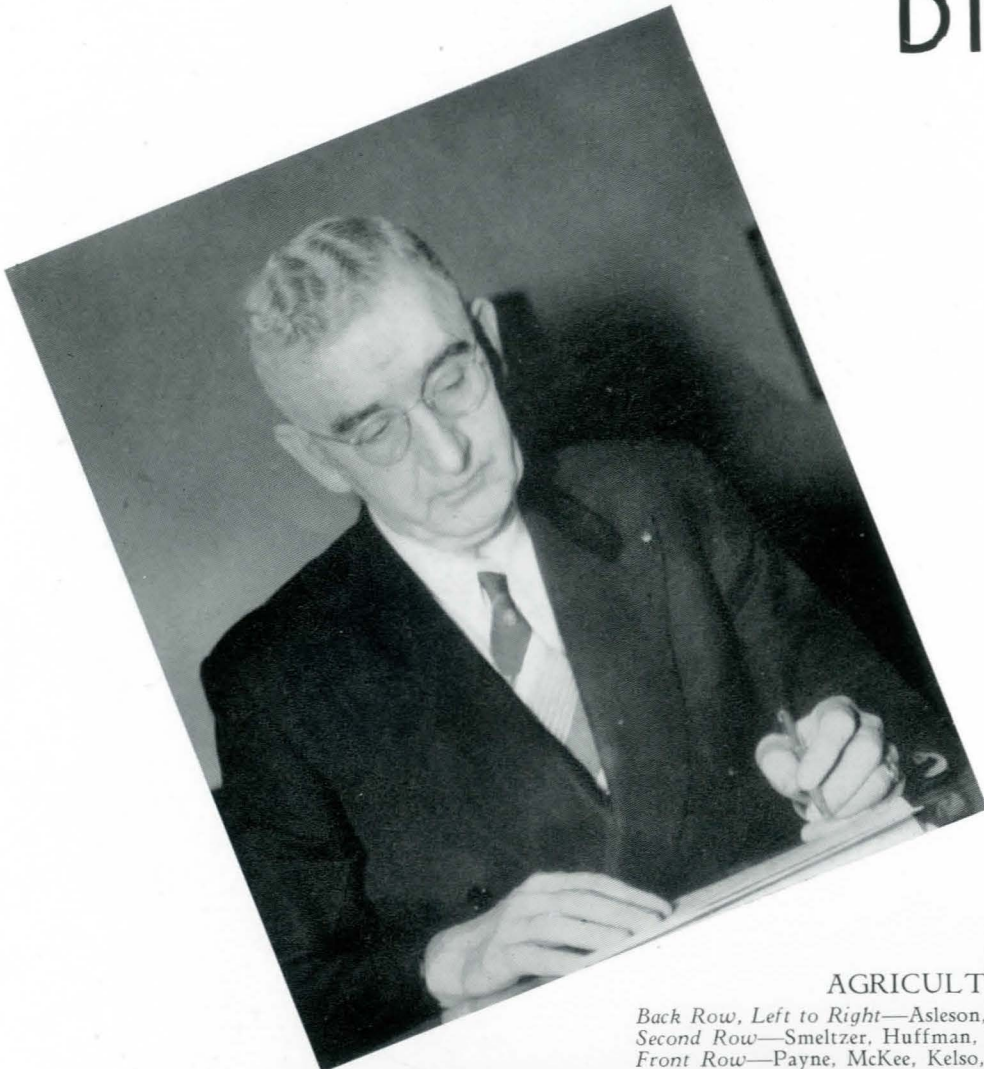

H. G. KLEMME

Dean of Men

The straight forward counseling and understanding heart of this Doctor of Divinity have been a stabilizing factor in solving the many problems arising out of the increased enrollment of men students.

DIVISION OF

DEAN CLYDE MCKEE

Heading the division of Agriculture, one of the oldest departments on the hill is Dean Clyde McKee. While not a trailer addict, he has spent the greater part of the last year traveling by trailer to visit the various Middle West Land Grant Experiment Stations. He also has a trait seldom attributed to a dean. He literally never forgets anything. When not confined with the duties of deanship and research, he is generally looking down the sight of one of his prize tools in his home workshop.

AGRICULTURAL FACULTY

*Back Row, Left to Right—Asleson, Hide, Korzan, Eckert, Keyes, Myrich, Davis.
Second Row—Smeltzer, Huffman, Rodeberg, Brence, Cockrum, Eslick.
Front Row—Payne, McKee, Kelso, Nelson, Thompson, Halcrow, Welch.*

AGRICULTURE

DR. J. A. NELSON
Head of Dairy Industry

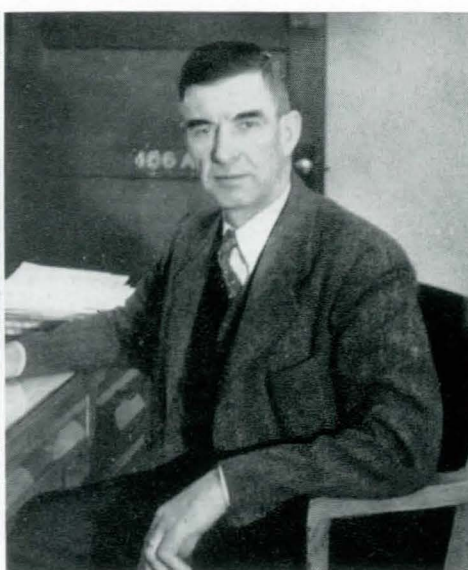

With Europe starving—absolute capacity production in Agriculture is essential. In doing its little bit, the Agricultural department with its various divisions has endeavored to prove the old saying, "It ain't what you do, it's the way you do it!"

Farm and ranch management, beef cattle production under varied conditions, methods of marketing farm and ranch products, irrigation and drainage all are being stressed toward the making of a better farming and ranching program for the state and for the nation.

DOCTOR J. C. HIDE
Acting Head of Agronomy

PROFESSOR O. W. MONSON
Rural Engineering

ASSOCIATE PROFESSOR H. E. RODEBERG
Head of Agricultural Education

PROFESSOR F. M. HARRINGTON
Head of Horticulture

PROFESSOR FRED S. WILLSON
Animal Industry and Range Management

DIVISION OF

DOCTOR E. W. SCHILLING

*Dean of the Division of Engineering
and Head of the Department of
Electrical Engineering*

M. R. GOOD

General and Industrial Engineering

The Division of Engineering, widely famed for the quality of the men it produces, offers seven branches of Engineering, architectural, chemical, civil, electrical, industrial, mechanical, and engineering physics.

This department trains students to take their place in a technological world and to find employment in industry which is becoming more and more scientific and exacting.

ENGINEERING FACULTY

SCIENCE

S. R. DYCHE
Professor and Head of the Department of Health and Physical Education

P. C. GAINES
Professor and Head of the Department of Chemistry

The Division of Science offers an opportunity for students interested in any of the "y's" and "ologys." As science today is the very foundation of our living, almost every student on the hill carries courses in this department.

P. S. ECKERT
Professor and Head of the Department of Economics and Sociology

L. O. BROCKMANN
Professor and Head of the Department of Education and Psychology

N. HELBURN
Assistant Professor of Geography and Geology

DIVISION OF

PROFESSOR JOHN W. HURST
Department of Mathematics

Mr. Hurst usually has an air of indifference, which is just a cover-up for a man with a brilliant mind. He spends a great deal of his time, adjusting his glasses from on his forehead to a hazzardous position low on his nose. Runs a close second to Mr. Opp for a dry sense of humor.

COLONEL C. D. RENFRO, PROFESSOR
Department of Military Science and Tactics

Colonel Renfro has been doing a magnificent job in building up Montana State's R. O. T. C. Texas born, suprisingly enough he is full of compliments for the state of Montana. Typical of most military men, he is the father of three lovely daughters.

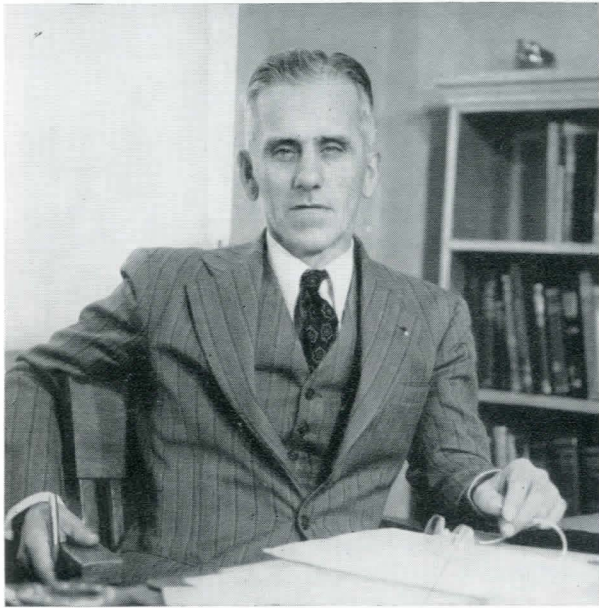

PROFESSOR L. E. OPP
Department of Music

Mr. Opp has done wonders in developing our music department. His music classes consist of a delightful mixture of fishing and flats. When not fishing or teaching, he is usually working his dry sense of humor overtime.

SCIENCE

PROFESSOR ANNA PEARL SHERRICK
School of Nursing Education

Miss Sherrick has the tremendous job of coordinating the work between the campus and the hospital divisions of the M. S. C. school of nursing. She eats, sleeps and lives for her "girls" and constantly looks after the welfare of the various nursing students.

PROFESSOR JAMES H. PEPPER
Department of Zoology and Entomology

Mr. Pepper is a holder of the Guggenheim Fellowship, and a firm believer in the value of research. Loves to laugh—would mimic a mocking bird. He is also noted for his ability to tell the best jokes in the department.

STUDENT SENATE COMMITTEE

JIM LYONS

President of the Student Senate

The living personification of a big wheel as shown by his past and present record—Freshman class president in 1942, repeat performances in 1945 and 1946 with the Sophomore and Junior classes. Sigma Chi president, member of Les Bouffons and Septemviri—intensely interested in athletics—especially gymnastics. Noted for his charm and personality.

BOB HENDERSON

Vice-president of the Student Senate

Business Manager of this year's Exponent, S. A. E. vice-president—industrious, co-operative, loves nothing better than "a good party." Demands strict obedience of under-dogs.

CORRINE MOGER

Secretary of the Student Senate

Spur treasurer and secretarial major—so of course does her job extremely efficiently. Sparkles with a dry humor besides, she's beautiful.

STUDENTS

NANCY AUSTIN

President Associated Women Students

Associated Women Students is a morale-minded organization which sets the pace for M. S. C. females. Women's Day is their headache—but they manage it very effectively. Campus rules for all women students are under their jurisdiction as is the Big-Little Sister Tea each fall. They select a college gift each year, and this year set up a point system for women students who have capably served M. S. C. President Nancy Austin, well-known, tireless, and efficient. One of President Renne's right-handed women, also maneuvers the Pan-Hellenic Council. Vice president of Pi Beta Phi; Mortar Board; and Pi Omega Pi president. Famous for her witty sayings.

NANCY STENSON

Associated Women's Student Secretary

Brains plus Phi Kappa Phi. Mortar Board president and an outstanding Alpha Omicron Pi. Member of Pi Omega Pi and altogether a very well-known and well-liked B. W. O. C. at M. S. C.

MARJORY KASKY

Associated Women's Vice-president

Popular, vocally-inclined. President of Delta Phi Delta; noted for her gay smiles and cheery greetings. Living example of brains and beauty. Homecoming queen; altogether a big wheel of Kappa Delta.

STUDENT SENATE

Back, Left to Right—Boyd, McClellan, Matsler, Erpelding, Reed, Heald, Hoffman, Fix, Ruzicka, Jenni, Marantette.

Second Row—King, Murfitt, Lyons, Moger, Austin.

First Row—Morrison, Henderson, Seaton, Drummond, Watson.

COMMITTEES

STUDENT UNION BOARD

*Standing, Left to Right—Harrington, Eck, Wismeyer.
Seated, Left to Right—Leigh, Frankovich, Heald, Roy.*

Governing body of famous Subology Hall, the Student Union Board manages financial affairs, upkeep, and all other administrative problems. Its chief purpose is to keep the mainspring of campus life smoothly functioning, and this it more than adequately does.

Members of the board of publications below are the editors of each college publication and their respective faculty advisors. Often a thankless task in this era of free-speech, they maintain the standards of the institution as a whole and are noteworthy examples of tact.

BOARD OF PUBLICATIONS

*Standing—Eck, Lyons, Ruzicka Watson.
Seated—White, Sampson, Fix, Young, Drummond.*

FACULTY RELATIONS

Standing—Hansen, Dolan, Lynch.
Seated—Johnson, Hosaeus, Lane, Barnes.

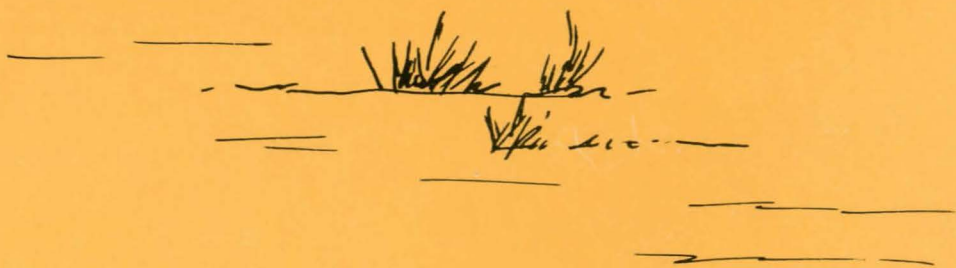

This faculty relations group informally known as the gripe committee and composed of faculty-student representatives, handles all the college gripes. This is the clearing board which combines a sense of humor with broad shoulders and does a difficult job well.

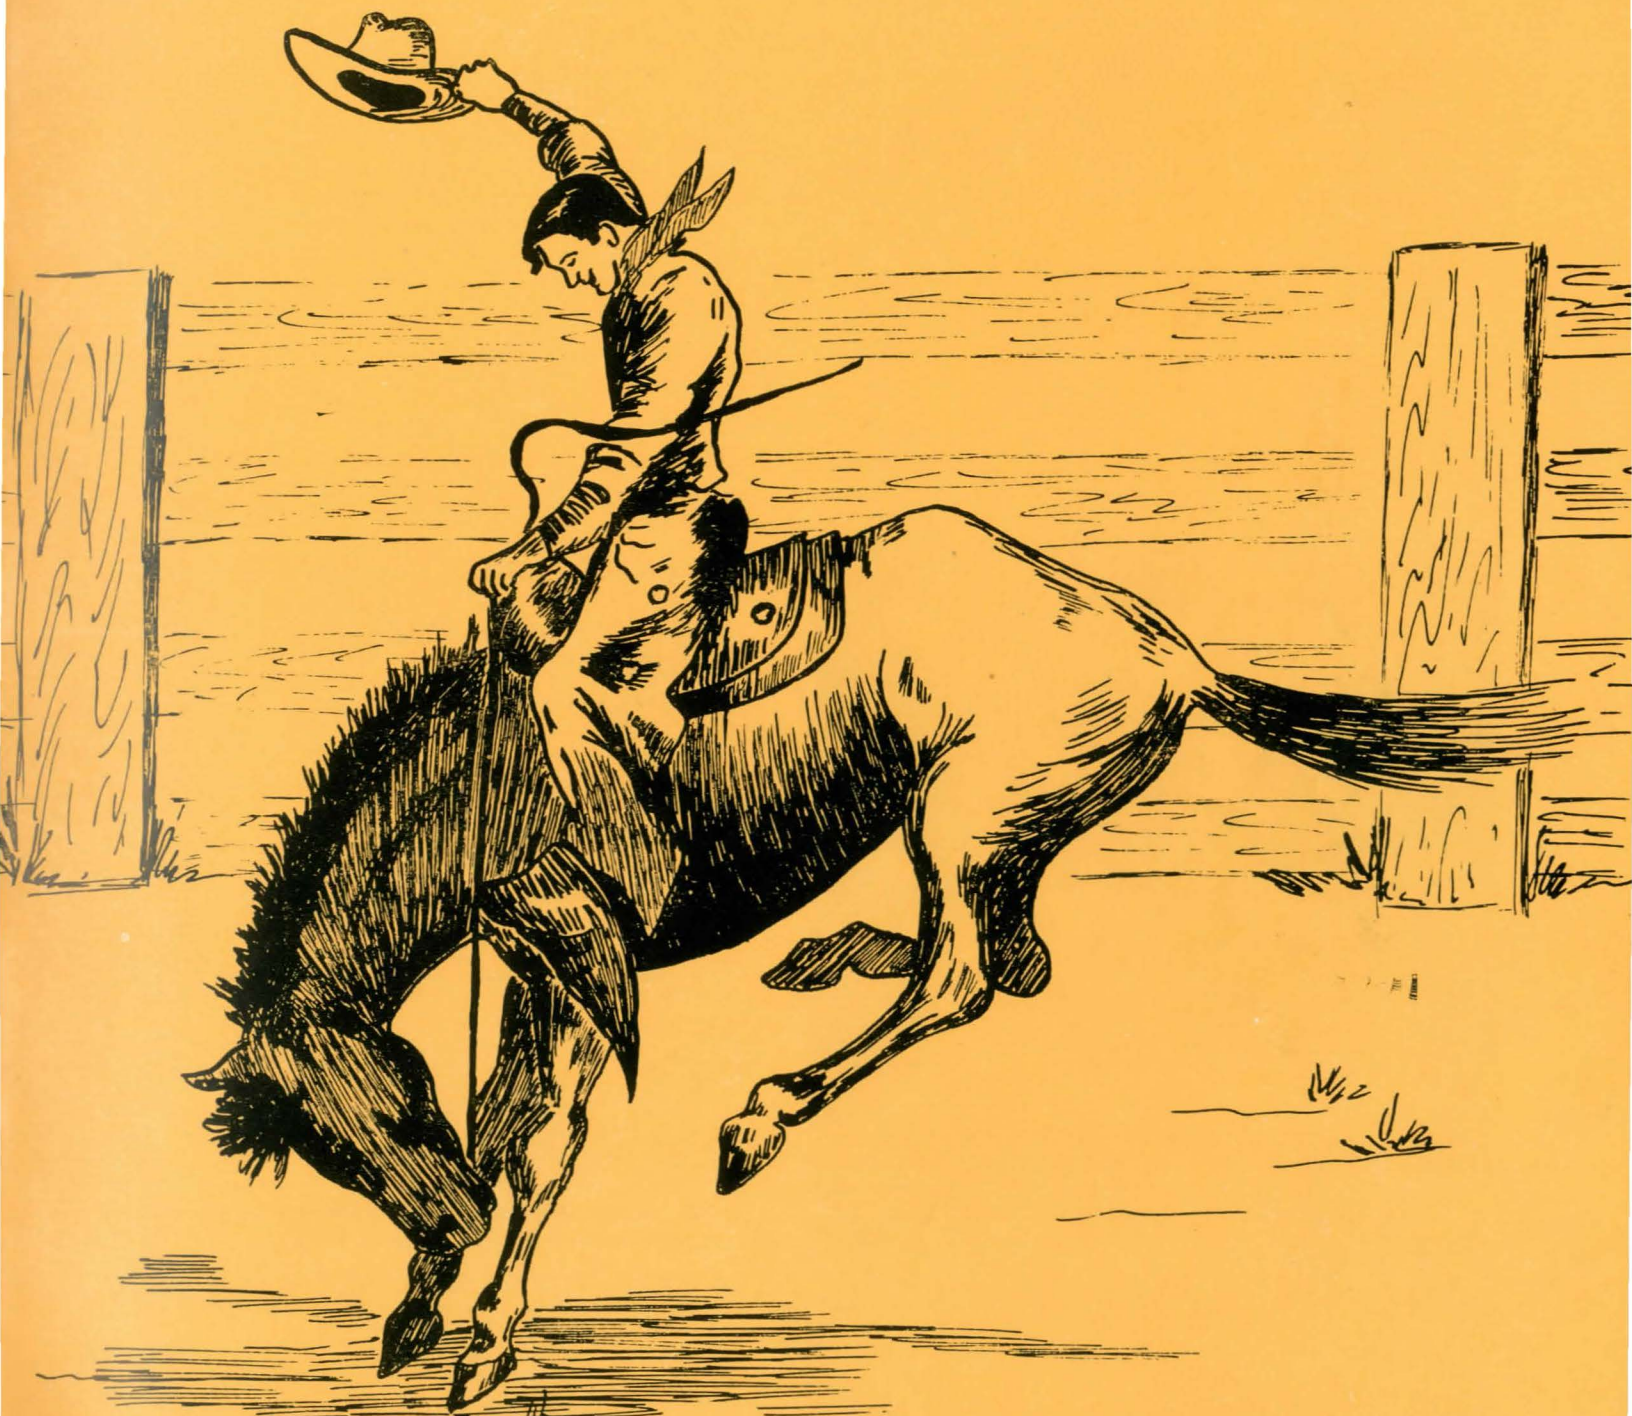

Below, are the "M. S. C. Emily Posts," this group sets the dates of all campus social affairs, makes rules pertaining to the social life of M. S. C. and arranges fraternity and sorority Rush Week Periods.

SOCIAL AFFAIRS

Phi Sigma—National Biology Honorary—among the favored few—Juniors and Seniors majoring in Biology—meeting certain grade requirements.

The happy members of this organization sponsor scientific speakers and are extremely encouraging to students inclined towards research. Their annual initiation is held at some point of natural interest where all the young hopefuls read their pseudo-scientific papers. Taking time off from their strenuous scientific pursuits, they hold a dance, the annual Biology Brawl, and offer an exceptionally good High School Week display.

Phi Upsilon Omicron—National Professional Home Economics Honorary—Junior and Senior girls eligible—selection based on services, spirit, personality, co-operation, interest in home economics, and scholarship—must be in the upper 2/5 of their class.

Headed by the able Alice Sugimoto, these uniformed members of the pot 'n pan brigade are on deck to see that the President's reception and the Big and Little Sister parties go smoothly. Projects for this year included catering service at the Union and the donation of toys to the Veterans Nursery School. They maintain the Edith Franks library of home economics, and have a \$1,000 loan fund available to worthy students in their department.

These super-scientists mix business with pleasure by lunching together regularly and listening to talks on the latest scientific findings. Their initiations are better than average, and once a quarter they come out of the confines of their chemistry labs to stage various social events. Among these are the annual hilarious parties in the Chemistry building, a formal, and a spring beer bust. During High School Week, these explosion-happy chemists sponsor a display which is one of the most intricate and nerve-wracking on the campus. Constructively speaking, the past year's activities included a safety program in the chemistry laboratories.

Phi Kappa Phi—National Scholastic Honorary—highest general award achieved by college students—founded at the University of Maine in 1897—local chapter installed in 1921.

This brainy bunch maintained throughout their college years a minimum grade average of 86 or were in the upper 10 per cent of their class. They hold an all-scholastic Honors Day and Seniors' Day assembly in the spring at which the new members of all other college honoraries are announced. On this occasion the seniors appear for the first time in cap and gown.

Electrons—Chemistry's Women's Honorary—sparse ranks filled with women who have successfully completed four quarters of chemistry.

This eager group provides the frustrated workers in the chemistry building with nourishment in the form of pastries during several weeks of each quarter. They furnish the necessary feminine atmosphere for the Alpha Chi Sigma social functions and sponsor departmental picnics. In general, the Electrons add a touch of co-education to advance chemistry courses.

Allan Morrison

Alpha Psi Omega—National Dramatic Honorary—selection based on dramatic achievements.

This active group of dual personalities present a series of old celluloid melodramas every quarter and are the mainsprings of each and every college production. This year they organized and operated a Play-Loan Library for the benefit of Montana high schools. Their initiations are, to say the least, unique.

Magnar Ronning

Alpha Zeta—National Agriculture Honorary—educated farmers—selected from students having completed four quarters of work in this field and showing outstanding leadership, personality and character—must be in the upper 2/5 of their class.

This active group aids and abets scholastic achievement on this campus by presenting educational talks and movies and choosing the outstanding freshman in their division each year. The success of the Little International and Collegiate Rodeo is due in no small part to their industrious spirit of cooperation.

SEATED, LEFT TO RIGHT: West, Pacovsky, Watson, Robertson, Smeltzer, Halcrow, Thompson, Anderson, Agee, Erpelding, Kirscher, Schrupp, Ronning.

*Seven Seniors
Sustainers of Tradition*

Septemviri—Senior men's honorary—seven members . . . selected by the faculty on the basis of scholarship, leadership, personality, and activities.

The upholding of campus tradition by individual members and as a body is their chief purpose during the year. In connection with this, they present campus traditions at the annual President's Assembly each fall, stage the Freshman-Sophomore Scrap, and plan Homecoming. The success of the bi-annual M-Day activities is due largely to their combined efforts.

Les Bouffons—famous for being our first honorary—literally "clowns"
... selected from the Junior class on the basis of leadership and popularity.

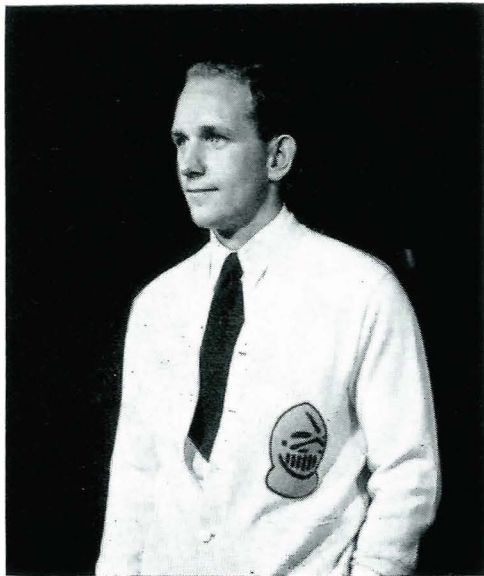

The B. T. O.'s included in this group devote their senior year in college to promoting good fellowship among the male members of the Junior class. As a means to this end, they sponsor several all-school dances; one in honor of Sadie Hawkins, and another more formal affair in their own name at which they announce their queen and tap new members. Ever eager to furnish the college with needed spirit, they are trying to obtain a "Victory Bell" to be rung at appropriate times.

Sophomore women's service organization . . . founded at M. S. C. in 1921, later becoming a national with chapters throughout the country. Required . . . an 80 average and an active freshman year.

This group of versatile handywomen is led by Martha Saunders, and can always be identified by their spotless white uniforms. In complete cooperation with the Fangs, they handle the crowds and the coke at athletic events in a courteous but firm manner. Individual information bureaus, their pseudo-athletic activities are prominent on M-Day, when they struggle up the treacherous incline with doughnuts for the starving freshmen. If they survive this year of sacrifice, their will be the title of B. W. O. C. someday.

CIVIL ENGINEERS

President - - - - - ALBERT WILLIAMSON
 Vice President - - - - - LEWEY LORENZ
 Secretary-Treasurer - - - - - WALTER L. DUNN

*Nature Slayers . . . Bridge Delayers . . .
 Ditch Surveyors*

Civil engineer students who wish to learn more of their major attend the meetings held every three weeks. Speakers are Engineers from the State Section of the Civil Engineering Society. Discussions of projects dealing with things like bridges and dams also make the meeting interesting. The club will attend a conference in Seattle held in April. The Civil Engineering Society was organized in 1908, ranking as one of the oldest clubs on the Montana State College campus.

Once a quarter, all students who have enrolled in Secretarial Studies get together for a general meeting in the basement of the Student Union Building. The main idea of the club is to promote interest in secretarial work. Speed and accuracy are the important goals to these girls who take fast dictation. Parties and a picnic during Spring Quarter provides entertainment. The Secretarial Club is widely known on the campus for their original High School Week demonstrations.

Jim Cusick

This group attends early Mass the first Sunday of each month, enjoying breakfast and Jim Cusick's repertoire of Irish jokes in the Rosary gym immediately afterwards. They sponsor an all-school dance, an organ recital, and culminate a busy year with a bang-up spring picnic. Considered as one of the most active church organizations on the campus, they participate wholeheartedly in "Religious Emphasis Week" and meet every other Sunday evening for the purpose of group discussion.

Chemical Engineers—M. S. C. branch of the American Institute of Chemical Engineers—chartered here in 1934. Membership requirements—students enrolled in chemical engineering.

These mechanized magicians hold meetings every quarter at which movies pertaining to chemical engineering are shown. Highlights of the year are the luncheon banquets featuring out-of-town speakers who discuss the applications of this particular field to the present day world needs. Like all good chemists—"they also serve"—with an annual spring picnic.

4-H members enrolled in college have the privilege of joining this club. Business meetings are held for discussing further interest of the 4-H Club. These students are not provided with time to work on projects while studying, but they are interested in the goings-on of their successors. Their activities are very enjoyable: The Overall-Apron dance . . . the girls in pert dresses and the fellows in trousers. The party for the new members . . . the sleigh ride in Montana snow . . . the picnic under Montana sunshine.

Women's Athletic Association—organized in 1923 . . . open to all women on campus. Governing power resides in a board consisting of the officers and chairmen of individual sports.

These Mighty Mademoiselles sponsor tournaments in the most popular female sports and in general promote interest for athletes among the fairer sex. This year M. S. C. maids were given the opportunity to take up riflery, thanks to W. A. A., and their Thanksgiving Turkey Shoot was very popular, probably because the winner got the bird. Athletic trophies, both for teams and individuals, are awarded each year. Come next year . . . another art of self-defense will be added for the protection of nervous co-eds; namely fencing.

This year the A. I. S. was under the dictatorial rule of a family combine. The Independents are people who maybe the Greeks don't want and they don't want the Greeks. Is the largest organization on the Hill, also the most poorly organized. The group spirit is good. No one is ever drafted for a job—the volunteers are so many, some have to be turned down. Threat of a fine or ten swats, you know, if they don't. They were organized to promote sportsmanship, friendship, scholarship, and leadership. The only thing they promoted was the frosh prexy. Reason for its large membership is the utter utter exclusiveness—everybody wants in. Have an honor organization known as the A Bar A (Alohas Amigas). The Independents are noted for their Spring Party which always has in attendance a larrge group of outsiders—and a brawl results. Social fee per quarter and year is ridiculous for the number of parties given.

Interfraternity Council

With the addition of Gamma Phis, M. S. C.'s interfraternity council now has representatives from seven fraternities. Their main goal is to work for cooperation among fraternities. They spend a lot of time promoting intramural basketball, baseball, skiing, bowling and other sports. Each year they sponsor the Inter-Fraternity Hop—one of the big events of the season.

Six Greek Letter groups on the campus comprise the Panhellenic organization of Montana State College. They too were honored by the establishment of a new sorority, Delta Gamma. They very generously gave their time and service in seeing the "DG's" got off to a wonderful start in fall rushing. This panhell group works constantly toward cooperation and promotes friendly relations between these sororities, as well as devising rushing rules and directing Freshmen "Rush Week" each fall.

Coach Clyde Carpenter

Manager Bill Lakel

Bright was the 1947 Bobcat football picture, as early in September Coach Clyde Carpenter began to assemble one of the most letter-packed gridiron machines that Montana State had seen in many years. One unforeseen trick of fate was developing at the same time. This same stalwart pigskin crew was to become one of the most injury riddled squads of the season. A tough nine-game schedule, which included clashes with Oregon university, Brigham Young, Colorado State, Hawaii, Montana university, Idaho State, Portland university and Nevada, took a toll of physical mishaps that left the Blue and Gold gridders with but a skeleton roster at the season's final gun.

BOBCAT FOOTBALL SQUAD

After only eighteen days of pre-schedule practice, the Montana State crew took on the colorful Oregon university Ducks in the season opener at Eugene. The Oregon victory of 27 to 14 does not tell the entire tale.

For 52 minutes Carpenter's stalwarts had bested Jimmy Aiken's eleven, and midway through the final period, Montana led 14 to 6. Oregon, via powerful left half, Jake Leicht, made a final eight minute thrust that was good for three touchdowns and 21 points. It was during this clash that the famed Bourdet to Clawson passing combo was realized.

At Provo, Utah, and with Brigham Young university, the Blue and Gold crew dropped their second go by a marginal 19 to 14 verdict in a nocturnal skirmish. Montana also lost in this tilt their fleet-foot halfback, Bill Nelson, with a torn shoulder.

AT NIGHT—AGAINST HAWAII

Bobcat gridders toppled their first opponents at Colorado State in Greeley. Montana State outclassed the Rocky Mountain conference rivals in every department and run up a victory tally of 32 to 13. This was the Carpenter crew's only conference tilt; consequently they were ineligible for the Rocky Mountain crown. Conference officials decided that no team would be titled for the '47 season.

Under the lights in the Billings High stadium, a capacity crowd witnessed the Hawaiian Rainbows squelch the Bobcats the last half of the fray, 14 to 0.

First stanza efforts of both squads were definitely without color. After half time festivities, a rejuvenated Islander eleven managed to tighten their pass defense and present a sparked offense, capable of downing the Cats.

GRIZZLY GAME

Saturday, October 18, was a beautiful day in Butte, Montana. Crowds of enthusiastic collegians swarmed in to the Copper City to witness the traditional Copper Bowl Classic in Butte High's Naranche stadium.

It was during a third period thrust that the Bobcats nailed down the ball game. In that third quarter, the Blue and Gold offense worked the pig-skin down to the Grizzly four stripe after Boston had recovered a Silvertip fumble. Bourdet, completely startling the Fessenden crew, flipped a short dump pass to Perrigo. Berger converted. It was that point, off Barney's toe, that gave Montana State their victory edge.

Minutes later in that same fate-deciding period, the Grizzlies by virtue of a holding penalty, ended up on their own 15 mark. A blocked punt gave the Gridcats the ball on the 24 and Carpenter's machine functioned to carry the ball to the 2. John Heine crashed over tackle for Montana State's second and final touchdown.

Final score: Montana State 13, Montana university 12. For the first time in fifteen years the Grizzlies bowed. The Copper Bowl came to Bozeman.

THE CHASE

Back to Gatton Field on October 25, the Bobcats steamrolled the Idaho State Bengals 34 to 12 for their first home clash of the season.

It was the Gridcats all the way, with Idaho managing to score only twice; once in the second period and again via Bernard LaRue's 70 yard run in the third quarter.

A spectator thrill, presented by the Blue and Gold, came in on a pass play, Johnny Gardiner to Ken Card. Gardiner from the quarterback slot stepped back and flipped a neat 40 yards to Card, who picked up the toss in the endzone for six.

Staunch defense action by Ball, Odneal, and Boston gave the Bengals anything but a good time.

The only mar on the gala Homecoming festivities was the gridiron defeat handed the Gattonmen by Utah State's Aggies 28 to 13.

It was the powerful Utah drives, led by Groll, Catputo, and Van Noy teamed with the Sorenson trio, that smashed its way through Montana's front wall and secondary.

Carpenter's machine just wasn't functioning.

Boston

Though injuries were already on the high ebb, the Bobcats literally dumped Oregon's Portland Pilots 20 to 13 in Anaconda under sleeting skies.

Adam Marshall and Jim O'Loughlin, sparked by hard driving John Heine led the Blue and Gold onslaught which over-matched Hal Moe's Portlandites. Carpenter's front wall refused to move, allowing the Pilot's a bare 65 yards, at the same time they managed to pave the way for Gridcat backs' total of 235 yards.

In Reno, Nevada, on November 15, playing their final game of the season, Montana State's gridders took their worst trimming of all, with a 55 to 0 tally.

The chips were stacked heavy against the squad even before they left for the Gambler's Paradise. Injury upon injury had piled up against the Blue and Gold, until a bare skeleton crew was left to make the trip. Thirteen varsity stalwarts were forced into inactivity. This left the Gattonmen wide open for the obvious Nevada assault.

JASON IN ACTION

In 1929 a powerful Bobcat squad came forth to defeat the Grizzlies for the first time in 25 years. At center for the Cats was an eager youth, a fellow who was on the gridiron playing his heart out because he loved football.

For three years he fought for the Gridcats, and in no small way lent his measure of success to the Blue and Gold. He loved that life of sports. On November 29, as a result of a hunting accident near Livingston, this life was taken from him. Jason Preston a true sportsman, a friend and inspiration to the many athletes who frequented the locker rooms here at State, lost his greatest clash of all. Montana State lost a fine trainer and the boys in Blue and Gold a solid influence.

FROSH FOOTBALL SQUAD

Montana State's fledgling gridders played off a four game schedule this past season melding themselves a two-game split victories.

The freshmen squad was under the careful tutelage of Coach Kenny Dow, one time fullback with Oregon State and a blocking halfback in the National Pro league's Washington Redskins.

Both defeats were handed the frosh by the Missoula Cubs. Their victories were over the Anaconda Anodes and the Butte School of Mines.

The Bobkittens were down by the Cubs 31 to 12 here at Gatton Field and again on the University's Dornblaster Pastures 26 to 7.

Victories in both of their invasions of alien gridirons, the Kittens dumped Anaconda's Anodes 19 to 0, and in a preliminary show the night before the bright Copper Bowl classic, the School of Mines fell 21 to 0.

COACH WORTHINGTON

McHUGH — MANAGER

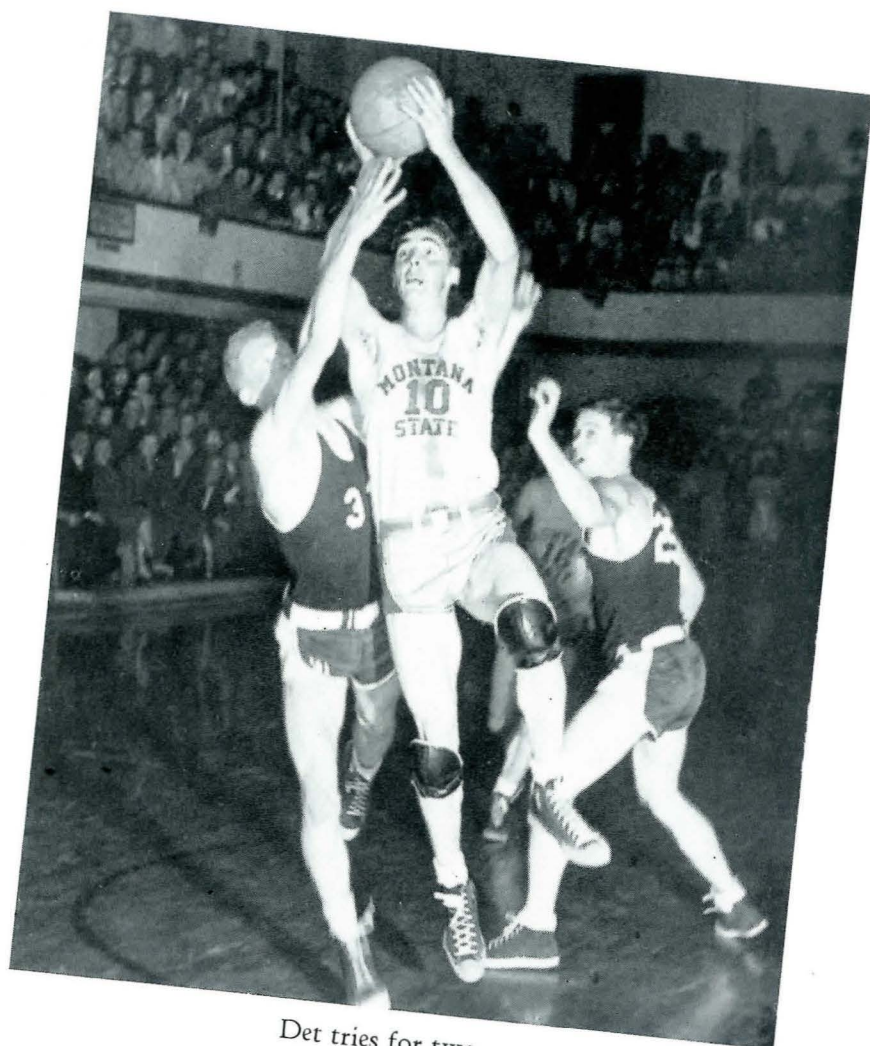

Faced with one of the toughest schedules in recent years, Coach Max Worthington called the Bobcats together for opening practice drills late in October. Six returning lettermen formed the basis on which the Cat mentor had to knit together a smooth working combination for a long 27 game schedule. The Cats finished the season with a record of 18 wins and nine losses. Two victories each were won against the Grizzlies and Montana School of Mines fives and one against the Rocky Mountain college team to retain the state cage title for the Bobcats.

Robertson, McCormick, DeTonancour (co-captain)

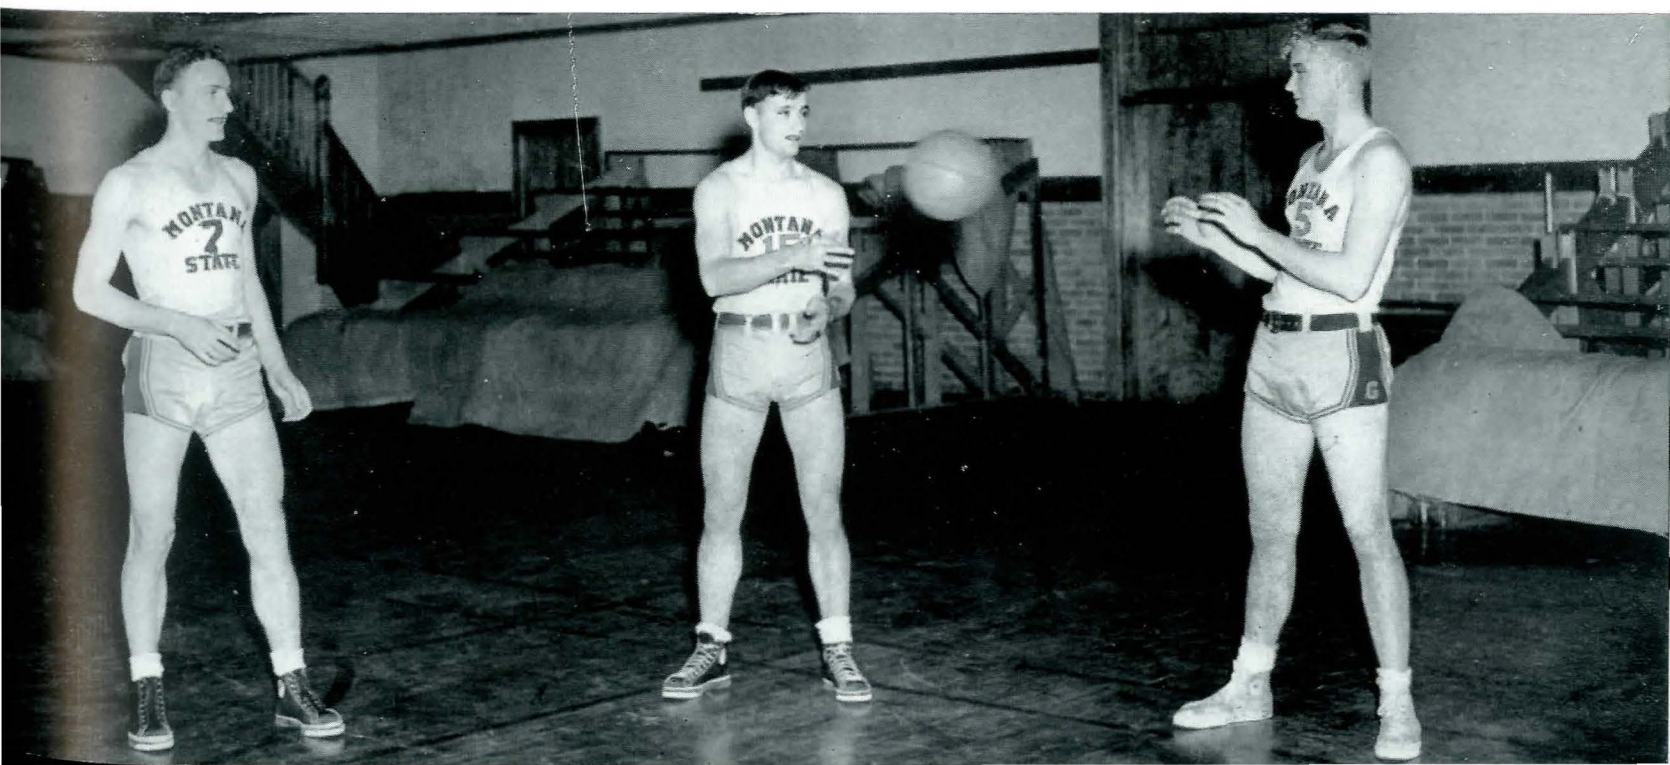

Opening at home against the Billings Stockmen, the Bobcats sounded warning to future opponents by romping home with a 69 to 26 win. The following week-end they downed the Utah State Aggies twice. Hitting the road the next week, the Blue and Gold lost to the 1947 national championship Utah university team and to the Utah State Aggies.

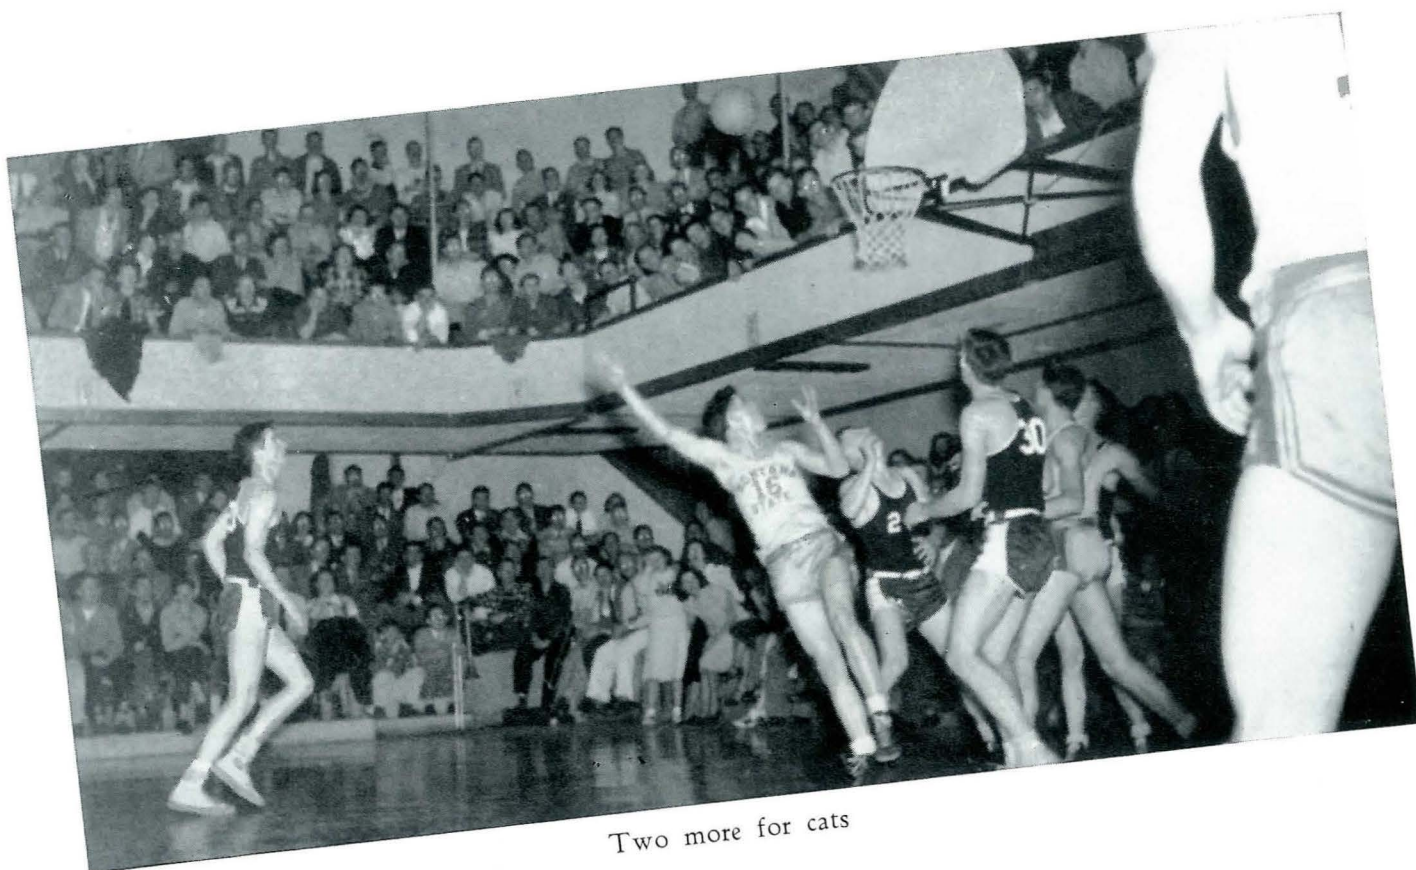

The next set of home games found them defeating the Montana School of Mines once, split a pair with St. Thomas college, took one from Springfield college and defeated Whitworth of Wyoming. History was made the next week-end when the Bobcats sweated out a triple overtime win over the Nevada university team. Playing their best basketball of the season, Worthington's cagers trounced the Wolf Pack 68 to 54.

Det tries for two

Kelly, Brown (co-captain), Peden (co-captain)

Two more for cats

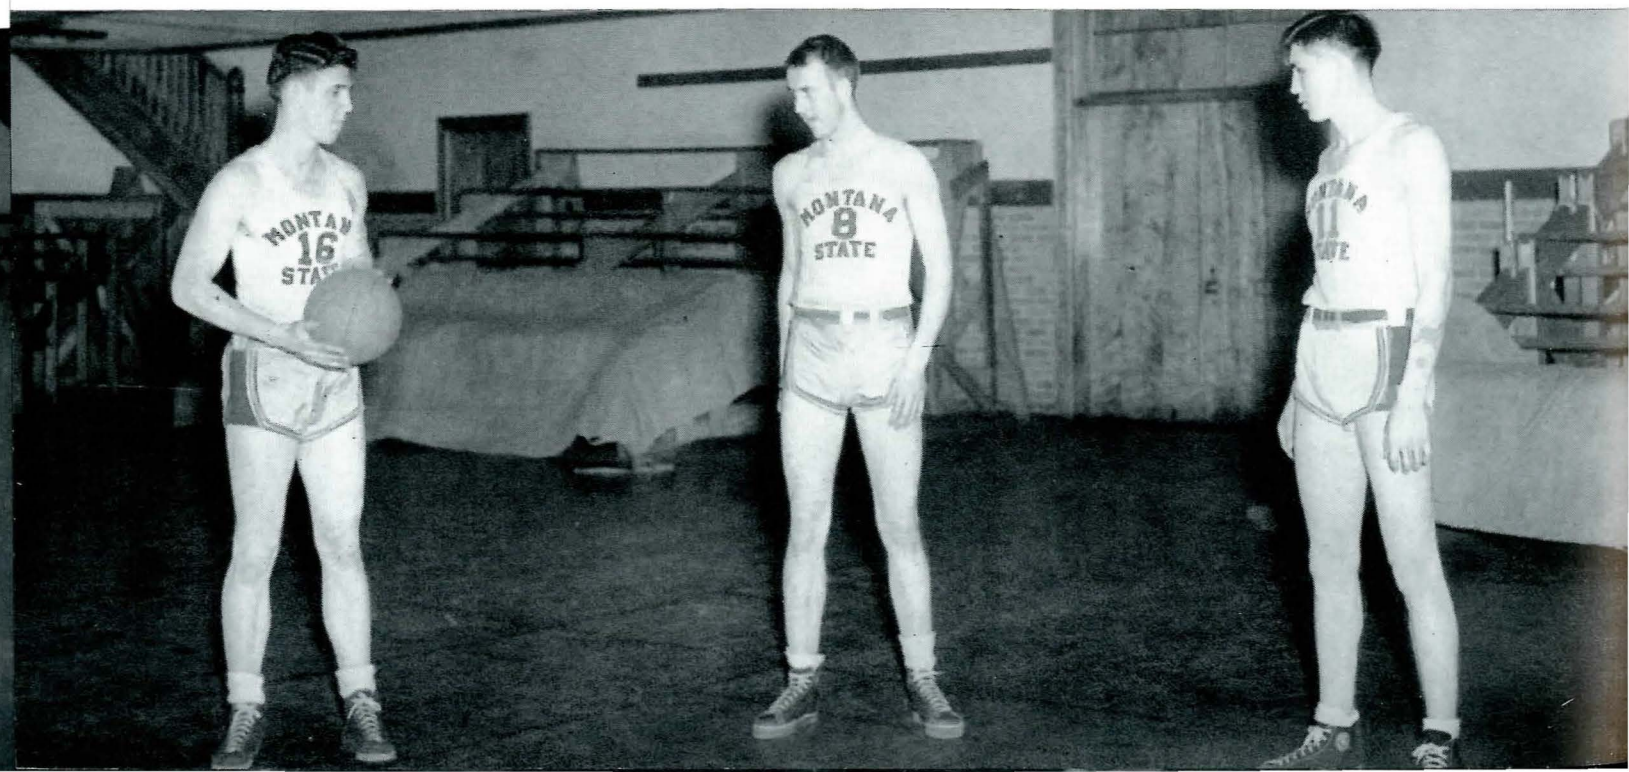

The Bobcats divided two with Idaho State college at American Falls and Pocatello before facing the Grizzlies on the Blue and Gold court.

Victories were scored against the MSU cagers by 56 to 49 and 53 to 50 counts. These satisfactory wins were followed by trouncings handed to the School of Mines in Butte and the Rocky Mountain college team at home. The RMC cagers came to Bozeman with a string of 25 straight wins.

After dropping the opener to Seattle college the Bobcats roared back the next night to take a one-sided game from the Seattle cagers. The Cats wound up the season with a double defeat at the hands of the Grizzlies in Missoula.

Boyd DeTonancour, Dean Robertson, and Mike McCormick are the only members of the cage squad to graduate.

Hatfield, Johnson, Mathias

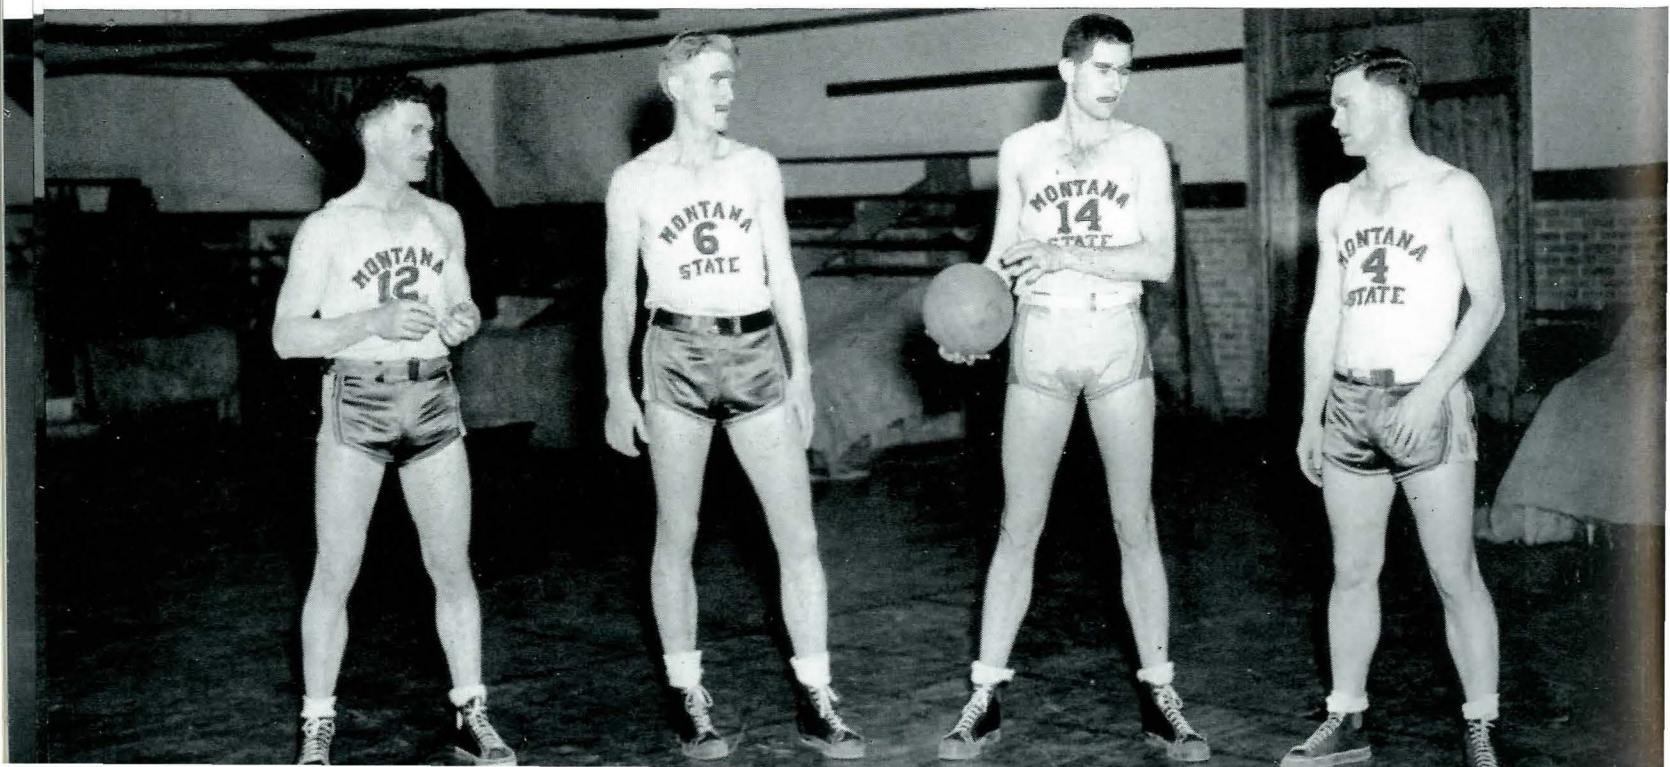

With a season's record of 12 wins against 3 losses, the Kittens showed great promise for a continuation of Bobcat supremacy. The team made up of the cream of Montana high schools won two from the University frosh, four from Great Falls College of Education, two from the local V. F. W. cagers, one from the American Legion quint, one from Park County high school, and one from Butte public. The Kittens showed more power by dropping the Varsity reserves to the score of 50-42.

Their only losses came from the University frosh at Missoula and a loss to the older and more experienced House of David quint. With such a fine bunch of boys the basketball picture looks very bright for M. S. C.

Lacking experience and training space, our tankmen in their only event of the year were beaten by the University of Missoula.

For the first time since the war, the Bobcats had a full well balanced boxing team. Competing in the Intermountain Inter-collegiate meet at Pocatello, the mitt slingers placed third in the eight team event. McGowan and Hunter lost close decisions in the championship round.

SKIING

And it's fun, too

This year's skiing season started out with twenty-six men competing for team positions. The team finally consisted of six men, Jack Davis, Waldo Cranston, Phil Finch, Carlos Livers, Wally Eagle and T. Booth Holker.

The first meet of the season was at Western State College where MSC came in for a trophy for third place, eight colleges having competed. At the next meet at Banff, Canada, MSC came in second against six colleges, losing first place by eight-tenths of a point. Disappointment came in their third meet at Pacific Northwest, Washington U. Here due to injuries they had to drop out of the meet.

Foust in Action

Over the top

Coach Flieger's gym team garnered fourth place at the Invitational meet at Boulder, Colorado. Foust was outstanding man for the Cats, with Meade and Lyons also adding points. The team dropped a dual meet to Colorado State at Greeley.

The gymnasts were a huge success with their daring exhibitions at the basketball games.

WOMEN'S SPORTS

Miss Marga Hosaeus, director, Miss Lucille Clydesdale, Miss Vesta Davidson and Miss Marie Haenel of the Women's Physical Education Department, strive to cultivate honor, skill and sportsmanship among the college women.

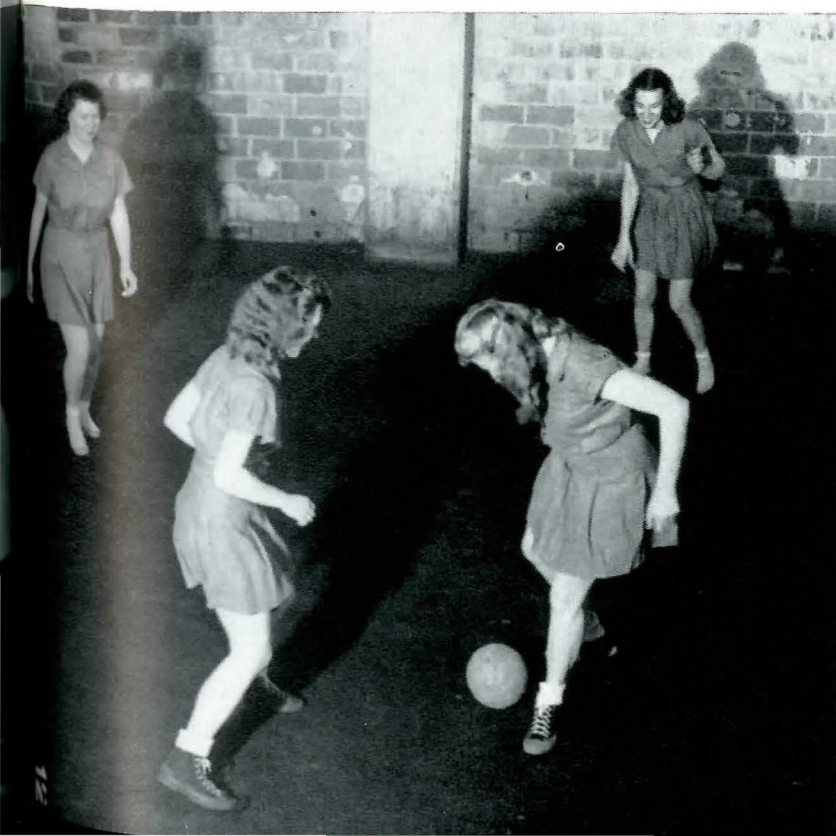

SPORTS ARE FUN!! These snap shots prove it! All MSC women are eligible to take part in them if they join the Women's Athletic Association. Points earned by WAA members in various activities are applied toward a Bobcat letter and individual awards in each field. You can always play a fast game of basketball, tennis or volley ball, but why not try something new and different as driving a golf ball over the links or whizzing down a mountain side on a fleet pair of skis? Archery, tumbling, ice skating and softball help one to forget life's troubles!

Edmund P. Sedivy

ORCHESTRA

Composed of both men and women, under the capable direction of Mr. Sedivy. The orchestra plays a large part in campus activities. The music of the great masters is presented to the student body at concerts throughout the year, but principally in spring quarter. Ably proving that our "cow-college" does have aesthetic tastes, they charmed music lovers of the central portion of the state during their spring tour.

Classy Classics Melodious Music-Makers

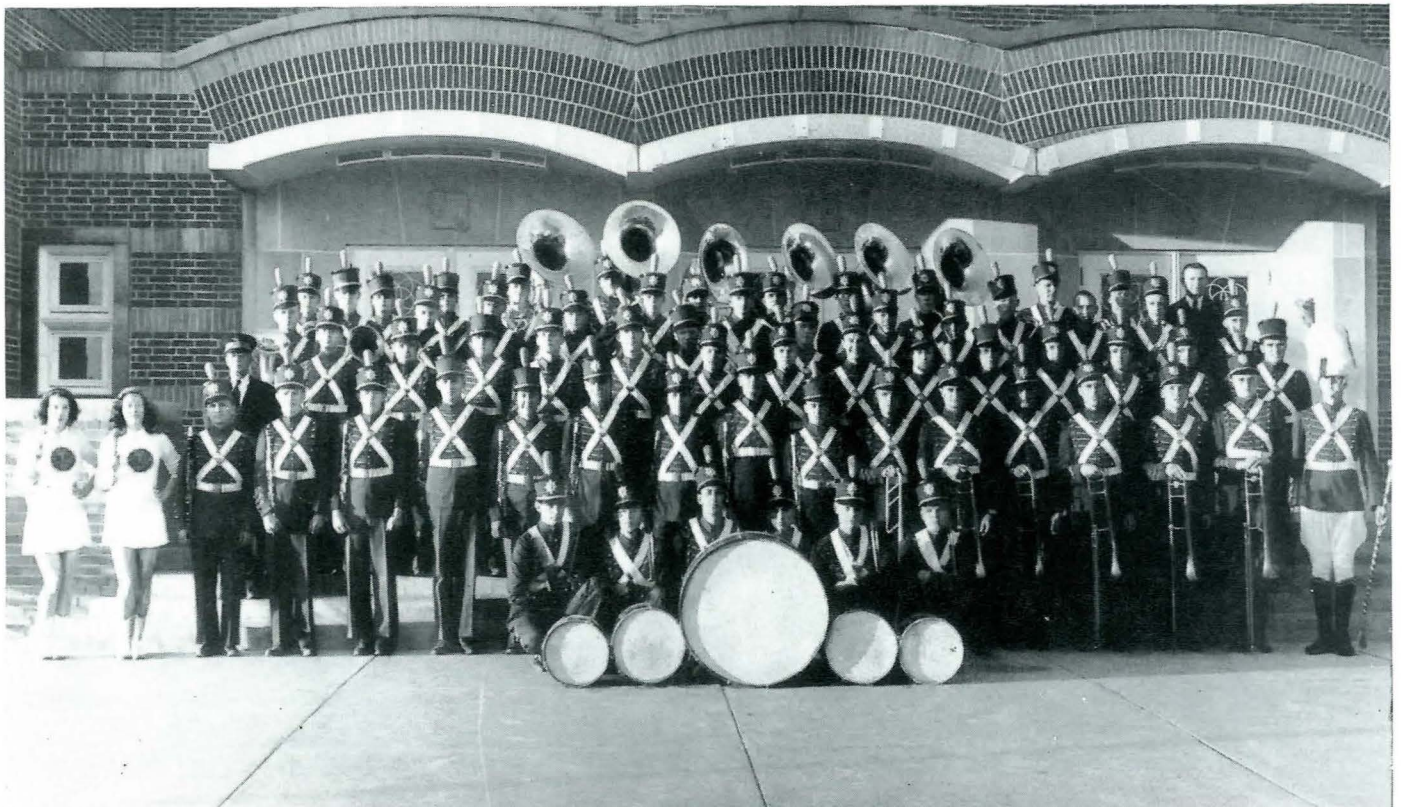

BAND

M. S. C. is justly proud of its Blue and Gold clad band, led by Lou Howard. They set the tempo at all athletic events of the college, providing the necessary pep and enthusiasm—especially when they form a panorama of color on the stadium's green turf. This talented musical aggregate made an extensive tour of the western portion of the state this spring. One of the nicest memories of Commencement Week is the Bobcat Band concert. Generally speaking, M. S. C. "stands up and cheers" for its widely acclaimed Bobcat Band.

CHORUS

This colorfully clad group of songsters is a relatively young organization on the campus. Composed of both men and women, they contribute greatly to the success of all programs in which they participate. With their appropriate Yuletide songs, they imbued the student body with joyful spirit at the annual Christmas assembly. Accompanied by their masterful conductor, Conrad Sandvig, they made a very well-received tour of the eastern portion of the state.

DRAMA

AGGIE—*Now easy does it*

A lot of good work, talent, and craftsmanship, was shown by M. S. C. students this year in presenting to the college three major plays and the Variety show. Given no credit and often starting out from scratch, students acquire talents from patching flats to applying wigs.

PLAYBOY OF THE WESTERN WORLD

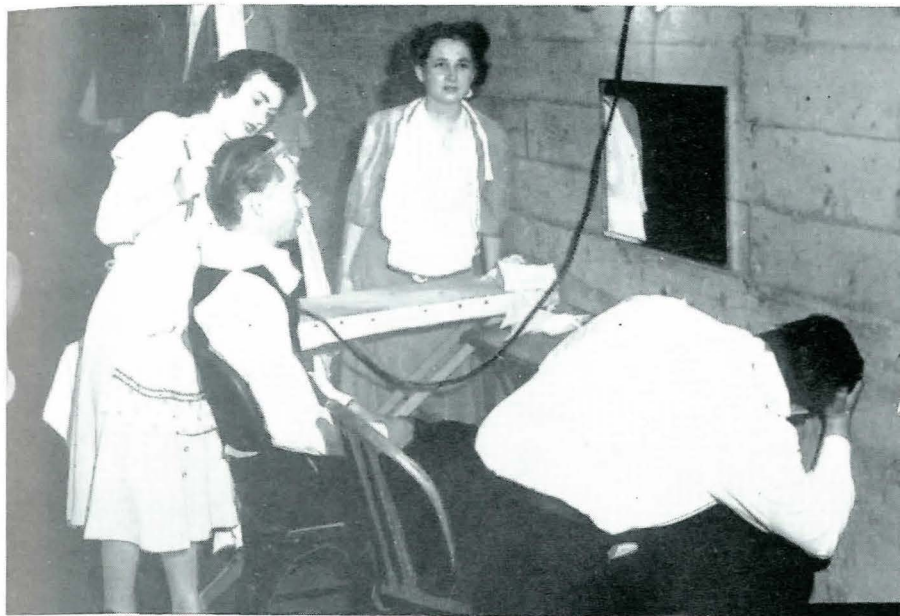

This charming Irish production, under the direction of Stanford G. Wheeler, was one of the highlights of Spring Quarter last year. Complete even to brogues and a picturesque set, it brought a touch of the Ireland of old to the west. The quaint expressions and beautifully expressed philosophies won the hearts of cast and audience alike.

DRAMA

HENRY IV

Shakespeare, in all his magnificence, was most ably presented by a superb cast under the direction of Stanford G. Wheeler. A tremendous production, with 25 in the cast and over 50 people engaged in backstage work of some sort, it featured breathtaking sets, costuming complete in every detail, perfect timing, and powerful renditions of Shakespeare's ever-famous phrases. One of the most difficult plays ever undertaken by the college, it was indeed a credit.

WINTER PLAY

NIGHT MUST FALL

In keeping with the college tradition of presenting a Broadway hit each year, Night Must Fall, under the direction of J. Verne Dusenberry, was the selection for winter quarter. Unique in that the end of the story was presented at the beginning of the play, it created a feeling of suspense throughout the entire production. The capably handled difficult roles and extraordinary set added to the enjoyment of the audience.

Grand Champion Showman of 1947 Little International is Pete Jackson, Urick and Frummond, Co-managers; Tootell, Director of Extension.

LITTLE INTERNATIONAL

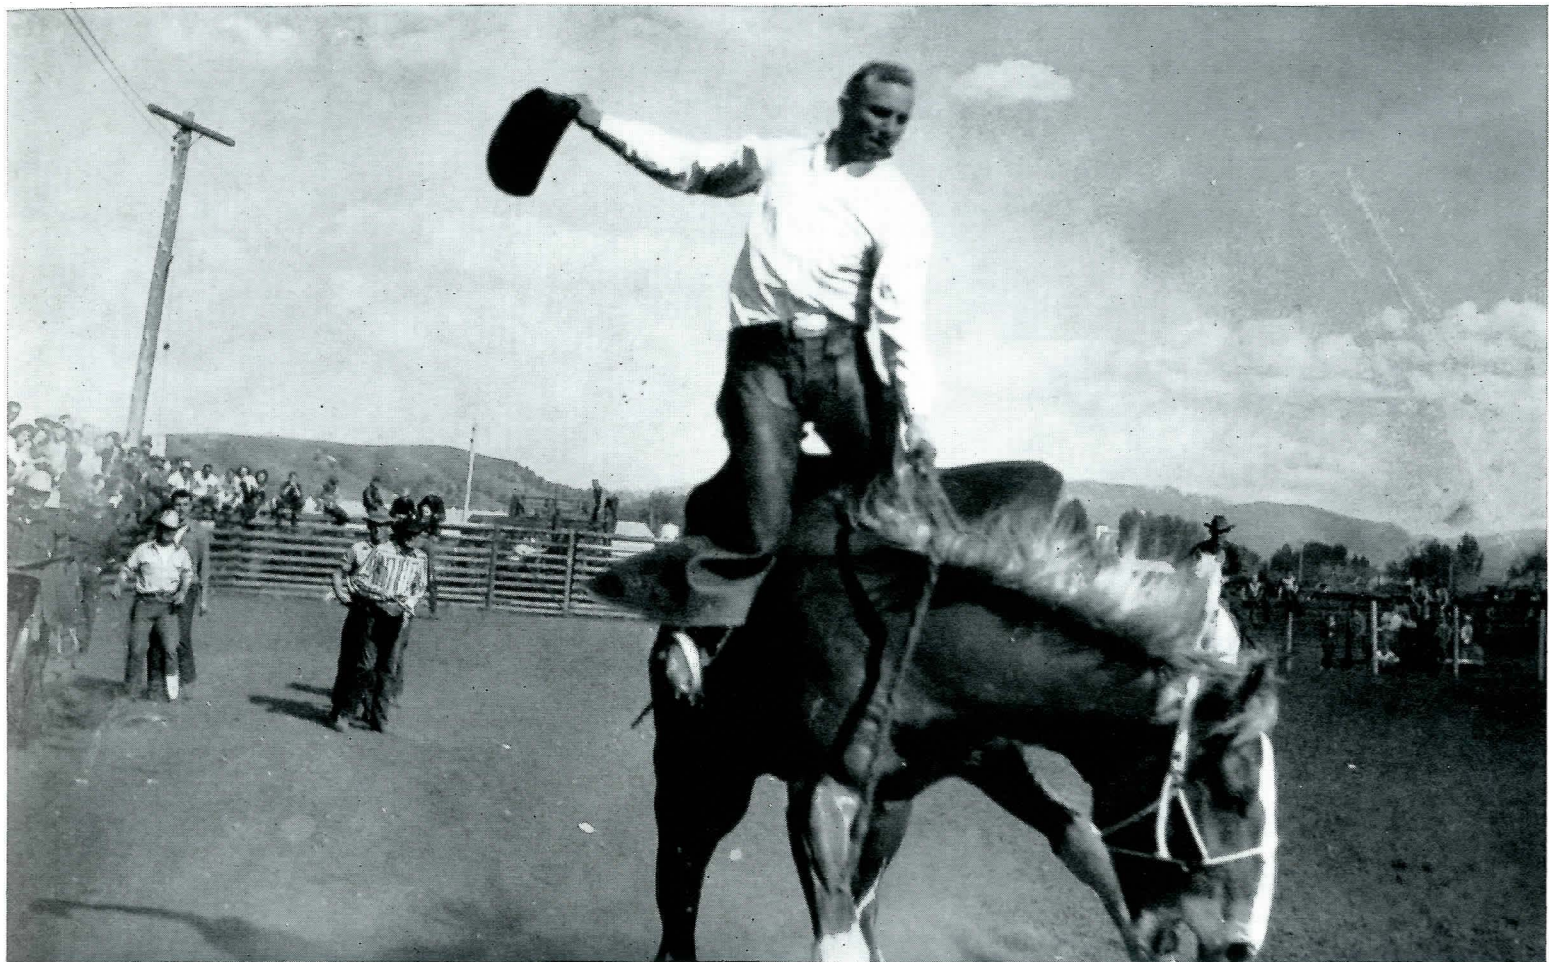

For the first time since prewar years, M. S. C. presented its first Little International. Wonderful co-operation was given by all organizations and spectators came from all over the state to view the wonderful show. Dairy, beef, swine, sheep and stock horse classes were shown. This year it promises to be even bigger and better.

Mr. Thompson—The harness goes on the horse!

Co-managers of 1948 Little International

RODEO

GENE PEDERSON

Last year Gene Pederson founded the first all-school rodeo, sponsored by the Ag Club. This was such a big hit with the student body that this spring will see the first Intercollegiate Rodeo at M. S. C. Collegiate cowboys from several states are entered and events from wild cow milking to bulldogging are scheduled.

SPECIAL DAYS

M DAY

*Hear Ye—Hear Ye, the court
will now come to order.*

M-day starts with an ear-splitting toot of the seven o'clock whistle and the whole student body, but especially the Freshmen, start a day devoted to fun. M. S. C. Frosh are packed like sardines, into large trucks and transported to the "scene of the crime." "Spurred" on by Fangs, they stagger up the treacherous incline to re-rock and white-wash the largest block letter in the world. About noon they come "rolling" home—tired covered with lime, but still happy, to meet their fate at Kangaroo Court—fun for all except the guilty culprits.

Caught you in the act—didn't they?

"Mix four quarts of water with two pails of lime."

BUTTE GAME

At last—results!

One Saturday each fall sees a steady line of cars headed west—destination is Butte, scene of the annual M. S. C.-M. S. U. football game. With a 13-12 score to victory, M. S. C. fans celebrated in true Butte style, high, wide, and handsome, revolted Monday morning via an all-school skip day.

*You Simply
overwhelm me!*

"And now ladieezzz—the 'U.'"

REGISTRATION DAY

Below is a snap shot taken of M. S. C. students awaiting registration numbers. Competition got so rough that girls had shoes and coats torn off and many due to their battered condition were unable to attend school the next day.

Johnny Gander winning the "cross country".

HOMECOMING

Off on a roaring start on Friday night with a rally, snake-dance, bon-fire and open houses of all groups on campus, Homecoming, as planned by Bob Thompson, was officially ushered in for 1947.

A snap of the last ounce of strength in the Freshman-Sophomore sac race during homecoming.

Miss Margie Kasky was selected as Homecoming Queen and reigned in regal splendor over the parade and football game on the following day.

RHUA SLAVENS

WOMEN'S DAY

Women's Day, under the competent leadership of Rhua Slavens, is the last big event before Commencement, and the only all co-ed college event. The convocation in the gymnasium featured a talk by Betty Ann Hanley, this year's five-year speaker, the awarding of various honors, athletic sweaters, and the tapping of the Spurs. Finally, an outstanding Senior woman is selected to return in five years and address this same Women's Day gathering.

Seniors wearing their caps and gowns with the rest of the girls in white form a processional about the campus and present a beautiful tableau from Montana Hall.

HIGH SCHOOL WEEK

High School week is a sort of "display your wares day" for M. S. C. department divisions. Chemists go all out to dig up more horrible concoctions and still not blow themselves up. Z&E department comes out with the very newest in skeletons.

Finale from M. S. C. variety show, the highlight of entertainment during high school week.

A little blood here and there

FRESHMAN WEEK

Each year the green campus of M. S. C. is invaded by scores of green freshmen students. Herded by the ever-present Spurs and Fangs, the poor Frosh spend a hectic week, attending assemblies, taking tests, and registering for fall quarter. After the Freshmen Week "get-acquainted" mixers and church suppers, the utterly confused Frosh are then subjected to the rigors of fraternity and sorority rushing. Finally the "greenies" begin fall quarter utterly confused and nervous wrecks.

You say your hungry?

INITIATIONS

The initiation of Phi Eta Sigma, freshmen scholastic honorary, features their own version of the "new look" with clothes worn hindside before, and carry back-breaking loads of books.

Alpha Zeta, national agricultural honorary, specializes in styles for the well-dressed farmer. Initiates wear clothes in keeping with their profession and carry pitch-forks to shovel the chalk-dust out of the class-rooms.

The Fangs, sophomore men's honorary, transports the campus into yesterday's age of chivalry during initiation. Dressed accordingly in suits of "tin-can" armor they invade class-rooms to recite choice poetic lines and spend much of the day chasing the old actives towards the fish pond.

"KNOW MONTANA"

HOW MONTANA GREW UP

Montana's history may be divided into three distinct periods—fur trapping and trading era, gold mining era, and the modern era which welded all the early beginnings of industry, trade and commerce into the complex structure that now characterizes the Treasure State and its assets.

The fur trading era which introduced the early settlement of Montana lasted from 1808 to 1850 when trappers and traders roamed the wild country, securing valuable pelts and furs and bartered with the Indians.

The gold mining era had its beginning at Gold Creek, 20 miles west of Deer Lodge in 1852, when gold was found by a Scotch halfbreed named Francois Finley. In 1858 James and Granville Stuart arrived at Gold Creek to start practical development of the state's gold resources and from then on names such as Grasshopper Creek, Bannack, Alder Gulch, Virginia City, Last Chance Gulch (Helena), Butte and others figured in the mining history.

By the 1860's mining—and the commercial enterprises it was bound to induce had started Montana's flight to a place in the Union, and the state's growth, commercially and industrially, was substantially aided by a good start in livestock in the '70s, with the coming of the railroads in the '80s, followed by widespread use of lands for agricultural purposes. All were factors in establishing the modern era.

LOOKING AHEAD—More industries of all kinds and better utilization of land will make for a more prosperous Montana.

Let's take off our hats to the past—and our coats to the future.

A Step Forward....

Pictured above is our Mirror Room—one of our Circles of Fashion on our recently opened, newly remodeled second floor. Our modernization program is going ahead, step by step, to give you a finer store, modern as tomorrow, with facilities and services surpassing any of the past. We invite you to pay us a visit the next time you are in Butte!

Editing a yearbook is an exceedingly enormous task for any student under any circumstances. This year, in spite of the financial difficulties encountered, we have attempted to give each student a book worth the money which he has invested. It is truly an investment in memories which we will have for many years. However with increased funds next year the situation in regard to finances will no longer be a problem. We have endeavored to turn out a non-partisan yearbook by not discriminating between any groups of individuals.

Whether a yearbook is successful or not is greatly due to the people behind the scenes who have no direct contact with the students and are namely the photographers, engravers, printers, cover manufacturers and student staff members. To these persons, our hats are off, Al Salisbury and Kenny Nuckolls of ARTCRAFT ENGRAVING AND ELECTROTYPE COMPANY deserve credit for their invaluable assistance. Also thanks to Bill Remington of REPORTER PRINTING & SUPPLY COMPANY. We wish also to express our appreciation to BOOKCRAFT COVER COMPANY for designing and producing our cover.

Here on the hill there have been students working hard all year, namely J. R. Thompson, Business Manager; Harold Draper, Photograph Editor; Jack Nelson, Mounting Editor; Garnet Kotkin, Copy Editor; Jack Marquis, Advertising Editor; Joan McCracken, Women's Sports Editor; John McClellen, Sports Editor; Bob Vine and Ann M. Hansen, Art Editors. Much credit is due these students and their efficient staffs. Also appreciation goes to the downtown photographers of Linfields Studios, Schlecton Studios, Lovelace Studios and Ohlsen Studios for their fine cooperation throughout this year.

Thanks to the student body as a whole for placing us in the responsible position of producing the MONTANAN. After looking back on a year of hard work, we hope that the book is accepted with a great deal of pleasure by the students as it represents the best we could produce and offer under the existing circumstances.
