

SUBJECT INDEX FOR IJS VOLUMES 1-11 (1995-2005)

- Accipiter gentilis*, see northern goshawk
acetylcholinesterase: 1:1-15
acute toxicity: 9:53-58
adrenocorticotropin: 1: 29-36
algae: 2(2):17-26
amphibians: 4:33-49
Antilocapra Americana, see pronghorn
arginine vasopressin: 1:29-36
Artemisia cana, see silver sagebrush
Artemisia spp., see sagebrush
aspen:
 browsing, 6:49-55
 clear-cutting, 6:49-55
 dioecious reproduction, 7:107-123
 embryology, 7:107-123
 morphology, 7:107-123
 regeneration, 6:49-55
- Aquatic ecosystems:**
 cover, 6:232-248
 macroinvertebrates: 6:178-196, 7:49-56
 macrophytes, 6:249-262
 habitat, 3:125-130, 6:178-196, 6:232-248
 river regulation, 7:49-56
 sedimentation, 6:232-248
 tailwaters, 7:49-56
- average plume spread: 10:8-19
avian assemblages: 5:1-11, 6:33-48
bald eagle: 1:1-15
bats:
 artificial roost sites, 9:19-25
 temperature requirements, 9:19-25
- Bears:**
 grizzly bear, 3:17-37
beaver: 3:11-16
behavior:
benthos: 3:11-16
- Bighorn sheep:** 6:339-354
 habitat selection, 11:25-30
 spatial independence, 11:25-30
- biculturalism: 3:131-142
binary vector spaces: 4:82-87
birds, general:
 Montana, 9:66-77
 radar monitoring, 9:66-77
- bison: 6:18-32
Bitterroot River, Montana: 4:68-81
Black Hills, South Dakota: 6:33-48
bottled water:
 analysis, 7:41-45
- total organic carbon, 7:41-45
brook trout: 6:217-222, 6:232-248, 8:191-211
bull trout:
 mountain lakes, 8:143-152
 nonnative, 8:143-152
- burbot:
 conservation strategy, 8:178-190
 Kootenai River, 8:178-190
- burrowing owl:
 breeding season, 7:63-69
 diet, 7:63-69
 Montana, 7:63-69
- butyrycholinesterase: 1:1-15
- Canis latrans*, see coyote
- Castor canadensis*, see beaver
- catalysis: 2:35-39
- Census:**
 capture efficiency, 3:1-6
 distance sampling (streams), 6:223-231
 live trap, 2(2):10-16, 3:1-6
 pitfall trap, 2(2):10-16, 3:1-6
 Shannon diversity index, 2(2):10-16
 snap trap, 2(2):10-16, 3:1-6
 track surveys, 6:78-85
- Centrocercus urophasianus*, see sage grouse
- Cervus elaphus*, see elk
- cetyltrimethylammonium bromide: 1:37-43
- channel catfish: 5:28-34
- Charles M. Russell National Wildlife Refuge, Montana: 6:57-67
- chlorofluorocarbons: 6:119-142
- chromatography: 1:44-52
- Clark Fork River, Montana: 2(2):17-26
- composted sewage sludge: 3:38-46
- computational complexity: 4:82-87
- Conservation Reserve Program: 2(2):10-16
- corticotropin releasing factor: 1:29-36
- cougar: 1:16-28
- Coyote:**
 age structure, 7:93-106
 bounties, 3:62-72
 control, 3:62-72, 7:93-106
 density, 16:78-85
 diets, 16:355-367
 longevity, 3:62-72

- prey, 6:355-367
 reproduction, 7:93-106
 survival, 3:62-72
Cutthroat trout:
 captive broodstock, 9:59-61
 conservation, 8:125-142, 8:191-211
 distribution, 8:153-177
 hybridization, 8:153-177
 native, 8:125-142, 8:191-211
 restoration, 8:125-142
 Utah, 8:125-142
 westslope subspecies, 8:153-177,
 8:191-211, 9:59-61, 9:101-106
Cygnus buccinator, see trumpeter swan
Cyprinidae, see minnows
Decarboxylase:
 amino acid decarboxylase (AADC),
 6:95-101
 decarboxylation, 2:35-39
Deer:
 forage use, 11:58-65
 northwest Montana, 11:58-65
 intelligent transportation systems,
 8:1-18
 vehicle collision mitigation, 8:1-18
 mule deer, 2:1-7, 3:62-72, 8:213-222
 white-tailed deer, 2:1-7, 3:87-93,
 11:58-65
Deer mice:
 abundance, 2(2):10-16
 habitat relations, 3:117-124, 5:12-22
 hantavirus, 8:38-44
 marking techniques, 11:66-70
 differential adjustment: 3:131-142
 discriminant functions: 3:47-53
 Douglas-fir: 2:1-7
 efficiency wage theory: 9:38-52
 Ephemeroptera: 6:178-196
 electrical conductivity: 1:37-43
 electrogravimetric analysis: 4:50-55
 electrolysis: 4:50-55
Elk:
 browsing, 4:57-67, 6:49-55
 effects of ecosystem management,
 2:1-7
 habitat selection, 7:70-77, 11:10-24
 interspecific interactions, 6:339-354
 mortality, 6:86-94
 population trends, 4:1-9
 security cover, 7:70-77
 sexual segregation, 7:70-77
 South Dakota, 11:10-24
 vulnerability, 6:86-94
 winter range, 4:1-9
 environmental contaminants: 1:1-15
 epinephrine: 1: 29-36
 feedback iteration function: 2:16-25
 Festuca idahoensis, see Idaho fescue
Fisheries ecology:
 competition, 6:197-216, 6:217-222,
 8:153-177, 8:191-211
 fish barrier, 8:191-211
 fish ecology, 6:10-17
 fish passage, 6:232-248
 introduced fish, 6:57-67, 7:22-33
 movements, 6:232-248
 native fish, 6:57-67, 7:22-33
 prairie stream fishes, 6:57-67
 redds, 6:223-231
 spawning, 6:223-231, 9:59-61
 survival, 6:197-216, 6:217-222,
 6:232-248
 winter research, 6:232-248
Fisheries management:
 angler response, 3:94-100, 6:68-77
 electrofishing, 5:35-38, 8:192-211
 hatcheries, 6:197-216
 Montana, 7:1-21, 9:101-106
 native fish recovery, 9:101-106
 turbulent fountain, 9:101-106
 Flathead Indian Reservation, Montana:
 4:33-49
 fluid flow: 2:26-34
 forensic anthropology: 3:47-53
Forestry:
 ecosystem management: 2:1-7
 forest stand structure, 4:10-21
 growth form: 4:57-67
 landscape analysis, 4:10-21, 6:86-94
 landscape ecology, 5:12-22
 logging effects on song birds, 6:33-48
 road density, 11:10-24
 thinning treatment effects on small
 mammals, 5:12-22
 geographical information systems (GIS):
 5:23-27, 6:86-94, 6:178-196, 7:78-91,
 8:30-37, 10:1-7
 geomorphometry:
 digital elevation models, 7:78-91
 ecological mapping, 7:78-91
 golden eagle: 1:1-15
 Grand Teton National Park, Wyoming:
 5:1-11
Great Plains:
 Crow Creek, Wyoming, 3:11-16
 Laramie Plains Lakes, Wyoming,
 3:73-81
 green space: 8:30-37
 Headwaters State Park, Montana: 2(2):1-9

- heavy metals: 1:1-15
 Henry's Lake: 6:263-284
Henry's Fork of the Snake River, Idaho: 6:103-332
 aquatic resources: 6:312-332
 bibliography: 6:312-332
 consumer surplus: 6:285-292
 economics: 6:106-118, 6:285-292
 geography: 6:106-118
 geomorphology: 6:159-177
 hydrology: 6:119-142, 6:312-332
 history of fisheries management, 6:263-284
 landuse: 6:178-196
 nonnative fish: 6:197-216
 recreation: 6:285-292
 watershed: 6:106-118, 6:178-196
 watershed management: 6:293-311
- Home range:**
 fidelity: 3:62-72
- Horse Creek, Wyoming: 9:62-65
Ictalurus punctatus, see channel catfish
 Idaho fescue: 4:22-26
- Immigration:**
 Russian-Americans: 3:131-142
 immiscible fluid: 2:26-34
 incubation: 3:55-61
 insulin replacement: 1: 29-36
 Island Park Reservoir, Idaho: 6:263-284
 juniper-woodland: 8:19-29
 kinetics: 2:35-39
 lake trout;
 nonnative: 8:143-152
Lemmiscus curtatus, see vole, sagebrush
 Lewis and Clark Journals: 11-31-43
 megafauna: 11-31-43
 ration units: 11-31-43
 recorded kills: 11-31-43
- Lewis and Clark Caverns State Park: 11:1-7
 Lewis' woodpecker: 3:55-61
 lichens: 2:1-7, 2(2):1-9, 3:82-86, 11:1-9
 light scattering: 1:37-43
 limestone: 1:44-52
 Little Bighorn River, Wyoming: 7:22-33
 Liu pyramids: 2:16-25
Lota lota, see burbot
 Madison River, Montana: 6:1-9
Machrybopsis gelida, see sturgeon chub
 macroinvertebrates: 3:11-16
 magnetic float: 2:35-39
 mass spectrometry: 1:44-52
 martial arts: 10:20-24, 11:71-75
Melanerpes lewis, see Lewis' woodpecker
- Merriam's turkey:
 nesting: 9:26-37
 population characteristics: 9:26-37
 survival: 9:26-37
- metal complexation: 3:38-46
 micelles: 1:37-43, 3:101-106
Microtus spp., see voles
 mine reclamation: 3:38-46, 8:213-222
 minnows: 6:10-17
 miscible fluid: 2:26-34
 Mississippian Lodgepole Formation: 1:44-52
- Missouri River, Montana:**
 fishery: 6:10-17, 6:68-77, 7:1-21
 monoid: 2:16-25
Myxobolus cerebralis, see whirling disease
 natural resources: 6:293-311
 New Zealand mud snail: 9:53-58
 normal alkanes: 1:44-52
 northern goshawk:
 nest behavior: 7:34-40
 prey delivery rates: 7:34-40
 noxious weeds: 6:368-369
 National Elk Refuge, Wyoming: 6:49-55
 NP-complete: 4:82-87
 nuclear magnetic resonance spectra: 3:101-106
 numerical wave propagation: 1:53-60
Odocoileus hemionus, see deer, mule deer
Odocoileus virginianus, see deer, white-tailed
Oncorhynchus clarki, see cutthroat trout
O. c. bouvieri, see Yellowstone cutthroat trout
O. mykiss, see rainbow trout
 organochlorines: 1:1-15
Ovis canadensis, see bighorn sheep
 paddlefish: 3:94-100, 5:35-38, 6:68-77
 peer mediation: 2:8-15
Peromyscus maniculatus, see deer mice
 photo interpretation: 4:10-21
Phencobius mirabilis, see suckermouth minnow
 pine, ponderosa: 2:1-7
 Plecoptera: 6:178-196
 Pollutant behavior:
 peak concentrations: 9:87-100
 plume spread: 9:87-100
Polydon spatula, see paddlefish
Populus tremuloides, see aspen
 porous media: 2:26-34
Potomopyrgus antipodarum, see New Zealand mud snail

- Powder River Basin, Wyoming, 8:213-222
 predation: 1:16-28, 3:62-72, 6:1-9
Pronghorn:
 effects of mining, 8:213-222
 habitat, 8:213-222
 propagation: 4:27-32
Pteronarcys californica, see salmonflies
Public involvement:
 communication, incentives, 6:293-311
 community building, 6:293-311
 cooperation, 6:293-311
 incentives, 6:293-311
 rainbow trout: 6:223-231, 6:232-248, 6:249-262, 6:263-284
Reithrodontomys megalotis, see western harvest mice
 remote sensing: 4:10-21
 reptiles: 4:33-49
Riparian:
 ecology, 6:159-177
 vegetation, 6:159-177
Rocky Mountains: 3:1-6
 East Front, Montana, 3:17-37
 Bangtail Range, Montana, 4:22-26
 Jackson Hole, Wyoming, 6:49-55, 6:78-85, 6:355-367
 Laramie Range, Wyoming, 3:55-61
 Teton Range, Wyoming, 6:106-118
sagebrush:
 characteristics, 8:46-59
 distribution in Montana, 8:46-59
 management, 8:46-59, 8:67-81
 taxonomy, 8:46-59
sagebrush-grassland: 8:19-29
 conservation, 8:60-66
 management, 8:60-66
sage grouse, greater:
 ecology, 8:67-81
 habitat, 8:94-104, 8:105-116
 hatching chronology, 8:82-93
 livestock interaction, 8:105-116
 management, 8:67-81
 migration, 8:67-81
 molt, 8:67-81
 productivity, 8:82-93
 status, 8:67-81
salmonflies: 6:1-9
Salmonidae: 7:22-33
Salvelinus fontinalis, see brook trout
Salvelinus namaycush, see lake trout
Sauger: 7:1-21
 scat analysis: 6:355-367
 seed dissemination: 4:27-32
 selenium: 1:1-15
 shrews: 2(2)10-16
 silver sagebrush: 4:27-32
 small mammals, general:
 abundance, 5:12-22
 capture efficiency, 3:1-6
 community structure, 8:19-29, 5:12-22
 diversity, 2(2)10-16, 8:19-29
 habitat, 3:1-6, 3:117-124, 8:223-225
 New Mexico, 8:223-225
Snake River, Wyoming: 5:1-11
Soils:
 fertility, 4:22-26
 leaching, 4:22-26
song birds: 5:1-11, 6:33-48
Sorex spp., see shrews
 spectrophotometric analysis: 4:50-55
Speotyto cunicularia, see burrowing owl
 stable isotopes: 6:119-142
Stizostedion vitreum, see walleye
Stizostedion canadense, see sauger
Springs:
 recharge, 6:119-142
Streams:
 channel morphology, 6:143-158
 discharge, 3:82-86
 groundwater seepage impacts, 4:68-81
 morphology, 4:68-81, 7:22-33
 peak flood, 3:82-86
 riparian corridor, 5:1-11
 spring-fed, 6:143-158, 6:159-177, 6:178-196
 streptozotocin: 1: 29-36
 sturgeon chub: 3:125-130
 suburban development: 6:78-85, 6:355-367
 suckermouth minnow: 9: 62-65
 surfactants: 2:35-39, 3:101-106
Tamias amoenus, see yellow pine chipmunk
Terrestrial ecosystems:
 browsing history, 4:57-67, 6:49-55
 food habits, 1:16-28, 6:355-367
 foraging, 3:55-61, 6:18-32
 forest openings, 3:87-93
 grazing influences, 3:17-37, 6:18-32
 habitat, 2:1-7, 3:1-6, 3:55-61
 habitat fragmentation, 6:33-47
 habitat security, 3:87-93, 6:86-94
 habitat selection, 1:16-28
 human disturbance, 5:1-11
 invertebrates, general, 9:78-86
 terrain ruggedness, 5:23-27

- vascular plants: 6:333-338
vernal migration, 9:66-77
- tracer investigations: 10:8-19
- Trichoptera: 6:178-196
- trout: 7:22-33, 11:45-57
- trumpeter swan: 6:249-262
- Tubifex tubifex*, see whirling disease
- urban planning: 8:30-37
- Ursus arctos*, see bear, grizzly
- visible spectra: 3:101-106
- Voles:** 2(2)10-16, 3:117-124
 sagebrush vole, 3:117-124
- walleye: 3:7-10
- waterfowl: 3:73-81
- Water:**
 management, 6:249-262
 quality, 6:1-9, 6:312-332
- western harvest mice: 3:117-124
- whirling disease: 7:57-62, 11:45-57
- Wildlife management:**
 furbearers, 9:1-18
 human dimensions, 9:1-18
- Montana Indian reservations**, 3:107-115
- mail survey, 9:1-18
- Northern Yellowstone elk herd, 4:1-9
 trapping, 9:1-18
- tribal law enforcement and criminal codes, 3:107-115
- wildfire:
 fuel load, 10:1-7
 Idaho, 10:1-7
 risk, 10:1-7
- Xanthoria elegans*, see lichens
- yellow pine chipmunk: 5:12-22
- Yellowstone cutthroat trout:** 6:263-284
 population status, 6:197-216
- Yellowstone National Park: 4:1-9, 4:57-67, 6:18-32, 6:143-158
- Yellowstone River, Montana:**
 paddle fishery, 3:94-100, 5:28-34
 Montana fishes, 7:1-21
 Two Moon Park, 6:333-338, 6:368-369
