## INFORMATION TECHNOLOGY USE AT MONTANA TECH

Lance Revenaugh, Montana Tech, Butte  
Gunnar Kayser, Montana Tech, Butte  
Hunter Gappmayer, Montana Tech, Butte

In today's world, there is something very valuable that is ever changing and advancing every single day. That is technology. More specifically, the use of technology in educational settings, such as colleges and universities, has advanced phenomenally in the last fifteen years. Students, along with faculty/staff alike have been branching out and exploring new advances in technology for both personal and educational use. The purpose of our project was to find a connection between educational and personal usage of technology in students along with faculty and staff. With that, we plan to create an annual survey issued to both students and faculty, to ultimately find better ways to utilize technology in education for the population at Montana Tech.
