THANKS!

On behalf of the Board of Directors of the Western Rocky Mountain Council (WRMC) of the Federation of Fly Fishers, let me extend our thanks for your participation as a demonstration-fly-tier at the 2007 Yellowstone Fly Fishing Exposition. I am well aware that each participant bears the personal costs of time, travel and accommodations at these events; your sacrifice is not taken for granted.

For your information, the monies generated at this Exposition will fund a variety of fly fishing related activities by FFF clubs that are located within the geographic boundaries serviced by the Western Rocky Mountain Council.

We intend to continue these expositions on a regular basis and we look forward to your future participation at these events.

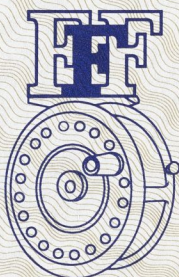

Again, please accept my personal thanks for your participation with us....and, if you are ever visiting my part of the world, please drop in and visit.

Tight lines!
