DNE boot, please -

TWENTY NEW SOFT HACKLES for the MAJOR HATCHES of AMERICA!

Now, after three years testing, SOFT-HACKLED FLY IMITATIONS is finished and will be published around April 15, by the author, Syl Nemes.

This is the most advanced of the three books on the soft-hackled fly because each pattern was designed to be used during the rise of certain insects. There is a midge, pale morning dun, four baetis, two tricos, callibaetis, green drake, Mother's Day caddis, mahogany dun, rusty spinner, freshwater shrimp, plus six soft hackles for Eastern trout streams. There's even a chapter on designing your own soft hackles, and an introduction by Dave Hughes.

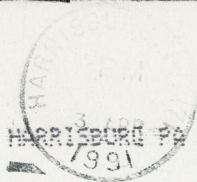

Three major advantages of these flies have emerged during the testing: 1. Larger imitations than the actual insect. 2. Effective on the swing. 3. Surer, deeper hooking.

The 6 X 9 inch, 120 page book features color paintings of the flies and will be bound in fine sail cloth. The regular price of the book is \$27.95, plus \$2.00 S&H. Pre-publication price is \$22.95 ppd, signed by the author.

To Order write: Syl Nemes, PO Box 3782, Bozeman, MT. 59772.

DEAR MR. NEMES,

HOPEFULLY THIS LETTER REACHES YOU IN GOOD HEALTH. MY NAME IS BRIAN SIMS. I HAVE BEEN FLY FISHING FOR ABOUT 6 SEASONS AND IN THE LAST FEW I HAVE GROWN ACCUSTOMED TO FISHING WET FLIES. I AM WRITING YOU THIS LETTER TO SAY HOW MUCH OF AN INSPIRATION YOU AND YOUR BOOKS ARE TO ME. I LOVE THE ELEGANT SIMPLICITY OF THE FLIES. I HAVE GREATER CONFIDENCE IN SPECIFIC WETFLIES AND SEEM TO FISH THEM BETTER. THANK YOU FOR YOUR SHARED INSIGHT INTO THE FLIES AND TACTICS. THE OTHER REASON I AM WRITING IS THAT I WILL BE IN THE AREA THIS SUMMER AND IF AT ALL POSSIBLE (I DON'T WANT TO INCONVENIENCE YOU) I'D LOVE TO MEET, SHAKE YOUR HAND, AND GET YOU TO SIGN ONE OF MY BOOKS. ONCE AGAIN THANK YOU FOR EVERYTHING. STAY WELL.

Pre-Publication offer from Syl Nemes

"*SIX MONTHS IN SCOTLAND*...An American view of its salmon fishing"

Syl Nemes exchanged houses with a Scottish family from Aug 96 to Feb 97. The house was 2 miles from the Don and 20 miles from the Dee, two of the great salmon rivers in Scotland. With Salar's Nemesis, a fly he invented, Syl not only fished those rivers successfully, but also caught fish on other salmon rivers. The editor of the book, said, "Even non-anglers will find this book a joy to read." A chapter, "Salmon Fishing in Scotland today," will appear in *Fly Fisherman*, in 1998, but you can read it now.

Six Months is a rare piece of fly fishing literature because it describes our sport on a different continent, and under an ancient, feudal system which most of us didn't know still exists.

There are 8 color pages of salmon rivers and Syl landing a 15 pounder. The hardbound (blackberry vellum) book will retail for \$29.95. Pre publication price is \$25, ppd, and signed by Syl for mid September delivery. Ph 406 587 8301. Visa, Master Card, Check. Box 3782. Bozeman, MT 59772

Dear Syl,

Enjoyed talking with you on the phone this morning about spinners. They have been a mystery to me so far, but I trust they will not be so for long, now that your book is on the way. That was the situation for Soft-Backles several years ago, and they are now a staple of my fly selection.

Looking forward to the book, and to meeting you next season sometime.

Dear fly fishing friend:

L. F. Stephens

First, I want to thank you for buying a copy of 'SPINNERS', around three years ago and I hope it has proved enjoyable and useful for you in your fly fishing endeavors since then. Umpqua Feather Merchants thought six of the patterns were good enough to be included in its wholesale lineup of trout flies and apparently they are selling quite well to fly shops across the country. I used the PMD spinner just a few days ago on the Firehole and the Henry's Fork, with a nice fish from both rivers on the fly.

The reason for this letter is to interest you in a similar offer for my new book, "SIX MONTHS IN SCOTLAND...An American View of its Salmon Fishing", to be published in a week or so, and to be bound in blackberry vellum.

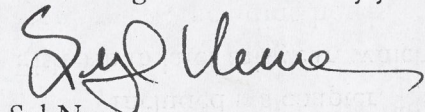

The book was the result of exchanging houses with another family near Aberdeen, Scotland, where I fished the Don (two miles from the house) and the Dee (around 20 miles), and several other rivers in that beautiful country. I caught three Atlantic salmon on my own fly, (Salar's Nemesis) and hooked a couple more.

Included is a chapter, "Salmon Fishing in Scotland today" due to be published in Fly Fisherman later this year, which gives readers current information about the salmon fishing on many rivers, including hotels, costs, phone and fax numbers, salmon fishing outlook and fly patterns to take to that gracious and beautiful part of the world.

For the book, I also researched the serious and troubling subject of salmon decline, interviewing fishing rights owners, gillies, salmon anglers and government officials to produce an historical and revealing picture of the country's commercial and recreational salmon fishing. I think you'll find this book a rare piece of fly fishing literature, because it describes *our* sport on a different continent, in a different culture, in strange and unknown waters and under an ancient, feudal system which most of didn't know still exists.

Six Months will retail for \$29.95, but this pre-publication offer is for \$25.00 postpaid. You can pay with a check, or with Visa or Master Card, by calling me or Hazel at 406 587 8301, and receive your autographed copy around August 1st.

Thanks again and Sincerely yours,

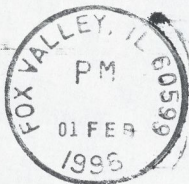

Syl Nemes

P.S. I forgot to mention there are 8 color pages of gorgeous Scottish salmon rivers, of me landing a salmon and of the ancient, netting system called net and coble.

Dear Fly Fishing Friend:

Well, I'm writing you to tell you about my new book, SPINNERS, the first book dedicated solely to adult mayflies. I spent three years collecting, studying and identifying spinners (with the help of an entomologist from Montana State University). The book records dates of appearance, molting and mating habits and colors, shapes and sizes of nearly 40 species. There are more than 30 new spinner patterns which are quick and easy to tie from readily available materials. A new winging method (the most difficult part of tying a spinner as you know) is described using only hackle fibers which are divided, flattened and pulled with wetted or waxed thumbs and forefingers. (No difficult figure 8's.)

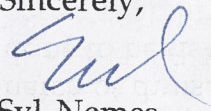

New patterns, like Syl's Gold Plated Spinner™ and Syl's Gold Tail Spinner™ are highly productive during a spinner fall and are also very effective during the hatch of duns. There are also dun/spinners with the body of spinners and wings of duns to be fished anytime, and doubles, two small flies tied on larger hooks for better visibility and better hooking.

The book is 6 x 9, with 157 pages of black and white text and with a 16 page color section featuring some rare macro photos of spinners including one just molting out of its dun skin.

The book features fine vellum binding from Dekker Book Binding in Grand Rapids, Michigan, and should be ready to mail by the time you get this letter. This milestone book will retail for \$34.95, but I'm writing you with a special offer of \$30.00, post paid, which means you'll receive your first edition, signed copy long before the book will be available in stores and fly shops, if you send your check now. You will also save several dollars.

If you want to find out more about the book, please call me at 406 587 8301. You can also charge the \$30 to your Visa or Mastercard credit card.

Sincerely,

Syl Nemes

Dear Syl,

I hope this letter finds you and Hazel
in good health & spirits.

Congratulations on the completion of your new
book. Each year at the "opener" at the Ranch I've
listened to your progress & comments and I know
you're glad it's finally behind you. This year
we'll enjoy a celebration with a drink of Hugo's
La phrasing!

I'm enclosing a check for Spinners.

Maybe you could note in it our now annual

meeting for the "gamer" (it's been 4 years for
me now, but I'm very young and am good for
another 30 or 40 years anyway). Also I have
the addit # 245 and it would be nice
for you to personalize Spinnus with a
notation of same. When this book goes to
leather I'd like the actual match.

Your name comes up often as I see
Alan Spinnus mostly at our Chicago Angles'
meetings and we always mention you (in
kind ways).

See you in June —

Dear Mr. Nemes,

Please find attached my check for \$30.00 for a copy of your newest book "Spinners". Also included are some bottles of Glide® Line Dressing for your use, and to share with any fishing buddies.

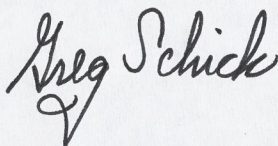

I was quite surprised when I called this morning to find out that I had reached your home rather than simply a business office! I was actually thrilled that you would take the time to talk to me like you did. That really was quite gracious of you, and I thank you for what amounts to an early Christmas present!

As I mentioned on the phone, it was my involvement with the development of Glide that got me into fly fishing. It's a hobby that I've only been involved with since 1987, but it's one that's been totally fascinating to me.

I told you that your soft hackle patterns had saved the day for me more than once on both spring creeks and freestone rivers. What I forgot to mention was that one of your soft hackle patterns also helped me win a prize - for best wet pattern - at a fly tying session during a Milwaukee Trout Unlimited meeting. (Saved the day again!)

Thanks again for the pleasant chat - I do hope that we'll get the chance to do it in person some day.

Best wishes, again, to you and your wife for the holidays!

Mr. Nemes: We recently were contacted by Mr. Gary Whipple regarding questions he had while reading your book. He asked us to pass along his note. See below:

Mr. Nemes:

I recently bought and am now reading your new book on softhackled flies. I fish nymphs and dries and even streamers, but I had no idea about flies like yours until I started reading your book. Could you help me please with two questions?

I found the reference to an allcock hook as the preferred hook for the softhackled flies, but I can't find any reference to allcocks that let's me identify what contemporary hook to use. Could you please specify a TMS hook or equivalent and solve my dilemma ?
I also found your list of needed materials thank you. Here is my really dumb question: are woodcock wings and snipe wings suitable sources of the hackles needed for the soft hackle flies in your book? I would have thought the equivalent of a neck was the correct source for hackles, but I can't find snipe capes nor woodcock capes, just wings.

Thanks for your help.
